## INTRODUCTION

This issue of Statistics of Communications Common Carriers contains financial and operating data for the year 1965. The information was taken principally from annual and monthly reports filed by the carriers with the Federal Communications Commission. This publication has been issued annually since 1939. Previous to 1957 it was titled "Statistics of the Communications Industry in the United States".

All communications carriers engaged in interstate or foreign communication service, except those so engaged solely through connection with the facilities of another unaffiliated carrier, are subject to all the common carrier provisions of the Communications Act of 1934, as amended. Subject telephone carriers which operate telephone exchanges and have operating revenues in excess of \$1,000,000, and those which do not operate telephone exchanges but operate to overseas points or in the Maritime radio services and have annual operating revenues in excess of \$50,000 are required to file annual reports with the Commission. Telegraph carriers which have annual operating revenues in excess of \$50,000 are required to file annual reports. Companies controlling communications common carriers whose annual revenues exceed \$2,500,000 are also required to file annual reports. Annual reports for the year 1965 were filed by 57 telephone carriers, 7 telegraph carriers and 10 controlling companies. Telephone carriers whose annual operating revenues exceed \$1,000,000 and telegraph carriers having annual operating revenues exceeding \$250,000 are also required to file condensed monthly reports of financial and operating data.

Part I of this volume contains information concerning all reporting carriers.

Part II contains financial and operating data relating to telephone carriers. Summaries for all reporting telephone carriers and for the Bell companies are included, as well as data by individual carriers. "Bell companies" as used in this publication represents the American Telephone and Telegraph Company, its principal telephone subsidiaries, and The Cincinnati and Suburban Bell Telephone Company and The Southern New England Telephone Company. It is estimated that, on the basis of assets and of revenues, the telephone carriers reporting to the Commission represent about 90 percent of the telephone industry in the United States. The gross book cost of communication plant of the reporting telephone companies was \$37,966,952,000 as of December 31, 1965 as compared with \$34,978,232,000 as of December 31, 1964, an increase of 9 percent. The total operating revenues reported by these carriers for the year 1965 were \$11,761,820,000 as compared with \$10,952,599,000 for the year 1964, an increase of 7 percent; and the total operating expenses, excluding taxes, amounted to \$7,082,180,000 as compared with \$6,505,650,000 for the preceding year, an increase of 9 percent. In compiling summary figures for telephone companies duplications between Bell companies with respect to securities, receivables, payables and items of income and expense, except in minor instances, have been eliminated.

## INTRODUCTION -- continued

Data relating to the larger non-subject telephone carriers, supplied voluntarily by those carriers, are shown in Table 17 of this issue.

Part III of this volume contains data relating to domestic and overseas telegraph carriers. The telegraph carriers reporting to the Commission, along with record communications business reported by telephone companies, represent practically all of the telegraph industry in the United States. The gross book cost of communication plant of the domestic telegraph carrier amounted to \$688,757,000 as of December 31, 1965, as compared with \$634,636,000 as of December 31, 1964, an increase of 9 percent. The operating revenues of the domestic telegraph carrier for the year 1965 amounted to \$305,615,000 and the operating expenses, excluding taxes amounted to \$270,613,000 as compared with \$299,410,000 and \$267,030,000, respectively, representing an increase of 2 percent in revenues and 1 percent in expenses as compared with the year 1964. The gross book cost of communication plant of overseas telegraph carriers was \$189,242,000 as of December 31, 1965. The operating revenues of these carriers for the year 1965 amounted to \$106,697,000 and the operating expenses, excluding taxes, amounted to \$83,369,000. Certain overseas telegraph carriers were reorganized during the year 1965 with the result that data reported for the years 1965 and 1964 are not comparable.

Part IV of this volume contains balance sheets and cash statements of the Communications Satellite Corporation.

Part V of this volume shows the intercorporate relations of all the subject carriers reporting to the Commission and the controlling companies.

- 1/ Represents credits to income tax expense by companies who, for tax purposes but not for accounting, used liberalized depreciation methods recognized by Section 167 of the Internal Revenue Code of 1954 in prior years along with "normalization" tax accounting. They have now either ceased using liberalized depreciation or have switched to "flow through" tax accounting and are amortizing to income tax expense the previously accumulated provisions for future taxes.
- 2/ Western Union Telegraph Co. had an estimated net reduction in Federal income tax expense of \$5,520,000 arising from the utilization, for income tax purposes but not for accounting, of a liberalized depreciation method recognized by Section 167 of the Internal Revenue Code of 1954. There was also an estimated net increase in Federal income tax expense of \$89,000 arising from the use in prior years of five-year amortization authorized under Section 168 of the Internal Revenue Code of 1954. The accumulated net balance at December 31, 1965, of liberalized depreciation and five-year amortization income tax differentials accounted for on the "flow through" basis was \$33,297,000.
- 3/ Represents credits to income tax expense by ITT World Communications, Inc., which prior to 1961, for tax purposes but not for accounting, used liberalized depreciation methods recognized by Section 167 of the Internal Revenue Code of 1954 along with "normalization" tax accounting. The provisions in the accounts for deferred taxes are being amortized in equal amounts over ten years commencing in 1962. ITT World Communications Inc., RCA Communications, Inc. and Western Union International, Inc. had for the year 1965 net reductions in Federal income tax expense of \$240,000, \$1,040,000, and \$166,000 respectively, arising from the utilization for tax purposes but not for accounting of liberalized depreciation which was accounted for on the "flow through" basis. The accumulated amounts of liberalized depreciation income tax differentials accounted for on the "flow through" basis since that basis was adopted at various dates were \$741,000, \$4,330,000, and \$236,000, for the three companies in the same order.
- 4/ Data not available.
- 5/ Western Union Telegraph Co. was unable to use its investment tax credit applicable to 1965 of approximately \$1,100,000 due to the absence of tax liability.

Note.—Carriers reporting annually to the Commission include those subject to all the common carrier provisions of the Communications Act of 1934, as amended, which operate telephone exchanges and have annual operating revenues in excess of \$1,000,000 and those which do not operate telephone exchanges but operate to overseas points or in the Maritime radio services and have annual operating revenues in excess of \$50,000. Data pertaining to the three exclusively Maritime radio carriers reporting are not included in the statistical tabulations in this volume except in Table 33. Carriers having annual operating revenues in excess of \$1,000,000 are also required to file monthly reports of revenues and expenses.

In addition to the carriers listed in this table data were obtained from certain of the larger non-subject telephone carriers and are tabulated in Table 17.

\* Bell Company. "Bell companies" as referred to in this volume include the American Telephone and Telegraph Co., its principal telephone subsidiaries, and two associated companies, The Cincinnati and Suburban Bell Telephone Co. and the Southern New England Telephone Co.

# Engaged in Maritime radio service only.

<sup>1/</sup> Households with service are the sum of residence main, apartment house PBX and residence service main telephones, and other residence PBX systems. There tends to be a slight overstatement of the proportion of households with telephone service.

<sup>2/</sup> Data not available.

Source: American Telephone & Telegraph Co.

Note.—The 1962 County and City Data Book published by the U.S. Bureau of Census shows the percent of occupied housing units having a telephone available to the occupants (whether located inside or outside the unit or serving the occupants of several units) as of April 1, 1960, by counties and cities. The 1956 issue of this publication shows the number of business and residence telephones, separately, as of January 1, 1955, by counties.

Source: Annual reports filed with the Federal Communications Commission. In a few instances data from unofficial sources or estimates were used.

Note.--Intercompany duplications between the Bell companies have been eliminated, except profits and losses on intercompany transfers of plant.

\* The difference in the number of carriers shown for each year is due to mergers, reclassifications, etc. In 1951 and 1965 revisions in the Commission's rules regarding reporting requirements resulted in a smaller number of reporting carriers.

1/ Includes local service revenues, toll service revenues, and miscellaneous revenues.

2/ Includes company, service and private line telephones.

3/ Figures are partly estimated. Local calls after 1950 include only completed calls. Toll calls include both completed and uncompleted calls for all years. The numbers of calls have not been adjusted to reflect the reclassification of calls over the years from "toll" to "local" due to the enlargement of local calling areas.

4/ The numbers reported for the years 1935-1942, and for 1961-1965 are as of the end of December. The numbers reported for the years 1943-1960 are as of the end of October.

5/ Represents total compensation for the year divided by the number of employees.

Note.--Data shown in this table include service between fixed stations and over ocean cables furnished by 5 carriers, marine service furnished by 15 carriers and domestic public land mobile radio service furnished by 37 carriers. In addition to the data shown above 3 other telephone carriers engaged in furnishing marine service only reported revenues of \$317,000, 3 overseas telegraph carriers reported telephone service revenues amounting to \$2,470,000 and 244 other telephone carriers and 423 miscellaneous common carriers reported domestic public land mobile radio service revenues amounting to \$8,500,000.

1/ Relatively minor amounts of revenues from U.S. sources from telephone operations of RCA Communications, Inc. in Guam (and Hawaii, prior to October 9, 1957) and of all America Cables and Radio, Inc. in the Virgin Islands prior to 1965 are not included in this tabulation.

2/ Prior to 1965 was Radio Corporation of Puerto Rico.

3/ The Virgin Islands cable was completed in December, 1964. ITT Communications, Inc.-Virgin Islands commenced operations December 23, 1964. Prior to that date the Virgin Islands-U.S. service was via radio between Virgin Islands and Puerto Rico and between P.R. and U.S. via the Puerto Rico cable.

4/ Includes the carrier's share of the overseas service charges attributable to the landline haul in the U. S.

5/ Private line revenues include the following amounts (some partly estimated) received from international telegraph carriers for the rental of overseas communications channels used by the lessees for the services offered by them. The year 1960 was the first in which there were any significant amounts received from the overseas telegraph carriers. The reduction in the amount of rentals received during 1964 and 1965 is the result of the acquisition by indefeasible right of user of channels in telephone cables and the acquisition of ownership interests in telephone cables by certain overseas telegraph carriers.

In addition, until Sept. 16, 1965 Hawaiian furnished RCA Communications, Inc. two telegraph channels in the telephone cable between Honolulu and San Francisco as part payment (in addition to \$12,000 per month) for the latter maintaining for Hawaiian standby radiotelephone facilities in Hawaii. The bulk of the overseas private line revenues, except those from the overseas telegraph carriers, are from agencies of the U.S. Government.

6/ The first transoceanic cable was placed in service September 25, 1956.

7/ The first Hawaiian cable, in which the Hawaiian Telephone Co. owned an interest was placed in operation Oct. 9, 1957. Prior to that date the Hawaiian-U.S. service was via radio and the Hawaiian radio facilities were supplied by RCA Communications, Inc.

8/ The telephone cable between U.S. and Puerto Rico was placed in operation Jan. 26, 1960.

Note: Data shown in this table are compiled from AT&T's response to Part 43.61 of the Commission's Rules and represents all overseas message telephone traffic which either originated in, terminated in, or transited the continental United States (excluding traffic between the 48 contiguous states and Alaska). According to the respondent, the numbers of calls and amounts of revenues shown herein were obtained for the most part from final settlement reports exchanged between AT&T and its overseas correspondents. These data vary somewhat from the message counts and revenues shown in Table 13. The data in such table are those recorded by AT&T in its books of account in accordance with FCC Uniform System of Accounts and reflect monthly credits which are partly estimated, due to insufficient information from overseas correspondents at the time of preparing monthly entries. Such estimates are adjusted in the month when final settlements are made, usually within three months. Thus the 1965 accounting entries contain adjustments for the last quarter of 1964 and unadjusted estimates for the last quarter of 1965. Table 13 contains substantial revenue reported by four carriers from calls handled jointly with AT&T, principally to or from Hawaii, Puerto Rico, Virgin Islands and Cuba. It also contains a relatively small number of calls, and revenues from these calls, which AT&T did not participate in handling.

Note.--This compilation includes data of carriers subject to all the common carrier provisions of the Communications Act of 1934, as amended, which operate telephone exchanges and have annual operating revenues in excess of \$1,000,000, and those which operate point-to-point toll service only and have operating revenues in excess of \$50,000.

( ) Deficit or other reverse item.

- 1/ The intercompany duplications between the Bell companies with respect to securities, receivables, payables, and items of income and expense, except in minor instances, have been eliminated. In the elimination of intercompany security holdings, the difference between the aggregate book cost as reported by the carriers owning such securities and the reported par or stated value, including ascertainable discounts and premiums applicable thereto, has been applied as a net reduction of unappropriated earned surplus, or in the case of the investment of American Telephone and Telegraph Company in Pacific Northwest Bell Telephone Company, against other capital surplus insofar as the latter is applicable to the intercompany holding.
- 2/ Includes the American Telephone and Telegraph Co., its principal telephone subsidiaries, and two associated companies, The Southern New England Telephone Co. and the Cincinnati and Suburban Bell Telephone Co.
- 3/ Does not include \$753,273,000 representing proportionate interest in the net assets of subsidiaries not consolidated in excess of book cost of the investments in such subsidiaries, which is added to book cost of investments and to surplus in consolidated balance sheets published by the Bell System.
- 4/ Reflects a reduction of \$9,995,277 on account of netting receivables from and payables to certain affiliated and other companies shown separately on the books of the two Departments.
- 5/ Attributable principally to investment credits on plant and equipment purchases of Bell Telephone Laboratories, Inc.
- 6/ Does not include \$87,138,660 proportionate interest in earnings (after dividends) of subsidiaries not consolidated, which is included in other income in consolidated income statements published by the Bell System.
- 7/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."
- 8/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.
- 9/ Data were not reported for Non-Bell companies.
- 10/ The number of lines reported for Pacific Telephone & Telegraph Co. include those of Bell Telephone Co. of Nevada.
- 11/ Partly estimated.
- 12/ Transiting messages are reported only by the system which first handles the message.
- 13/ Includes monthly charges and installation and move charges.
- 14/ Complete data not available.
- 15/ Does not include data for group life insurance, basic medical expense insurance and extraordinary medical expense insurance financed jointly by the companies and the participating employees. During 1964 the Bell companies established trust funds to provide for certain death benefits to beneficiaries of active and retired employees. During 1965 benefits paid from these funds amounted to \$11,628,779. They are not reflected in data shown here.

( ) Deficit or other reverse item.

<sup>1/</sup> Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

<sup>2/</sup> Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.

<sup>3/</sup> Partly estimated.

<sup>4/</sup> Transiting messages are reported only by the system which first handles the message.

<sup>5/</sup> Includes monthly charges and installation and move charges.

<sup>6/</sup> Does not include data for group life insurance, basic medical expense insurance and extraordinary medical expense insurance financed jointly by the companies and the participating employees. During 1964 the Bell companies established trust funds to provide for certain death benefits to beneficiaries of active and retired employees. Benefits paid from these funds in 1965 are not reflected in amounts shown.

( ) Deficit or other reverse item.

1/ Includes credit items, "Telephone franchise requirements" and "expenses charged construction."

2/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.

3/ Partly estimated.

4/ Transiting messages are reported only by the system which first handles the message.

5/ Includes monthly charges and installation and move charges.

6/ Does not include data for group life insurance, basic medical expense insurance and extraordinary medical expense insurance financed jointly by the companies and the participating employees. During 1964 the Bell companies established trust funds to provide for certain death benefits to beneficiaries of active and retired employees. Benefits paid from these funds in 1965 are not reflected in amounts shown.

( ) Deficit or other reverse item.

1/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

2/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.

3/ The number of lines reported for Pacific Telephone & Telegraph Co. include those of Bell Telephone Co. of Nevada.

4/ Partly estimated.

5/ Transiting messages are reported only by the system which first handles the message.

6/ Includes monthly charges and installation and move charges.

7/ Does not include data for group life insurance, basic medical expense insurance and extraordinary medical expense insurance financed jointly by the companies and the participating employees. During 1964 the Bell companies established trust funds to provide for certain death benefits to beneficiaries of active and retired employees. Benefits paid from these funds in 1965 are not reflected in amounts shown.

( ) Deficit or other reverse item.

1/ Represents weighted average rate per \$100 par or stated value.

2/ This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom, and has instead classified them as telephone message toll revenues (line 108 above).

3/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."

4/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.

5/ Data were not reported for Non-Bell companies.

6/ Partly estimated.

7/ Transiting messages are reported only by the system which first handles the call.

8/ This company handled 360,768 messages between U.S. and Cuba. Since these messages are included in the number shown for American Telephone & Telegraph Co., to avoid duplication they have not been shown here. The Cuban Company's portion of revenue for these messages amounted to \$852,800.

9/ Includes monthly charges and installation and move charges.

10/ Data not tabulated for Non-Bell companies as reports for most of these companies are incomplete.

( ) Deficit or other reverse item.

1/ Includes telephone plant adjustment in amount of \$58,604.

2/ Includes a stock dividend valued at \$3,000,000. The amount of \$10.00 represents cash dividend paid.

3/ Represents weighted average rate per \$100 par or stated value.

4/ This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom, and has instead classified them as telephone message toll revenues (line 108 above).

5/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."

6/ Data were not reported for Non-Bell companies.

7/ Partly estimated.

8/ Represents completed calls only.

9/ Transiting messages are reported only by the system which first handles the message.

10/ Includes monthly charges and installation and move charges.

11/ Data not tabulated as reports for most Non-Bell companies are incomplete.

( ) Deficit or other reverse item.

<sup>1/</sup> Effective midnight, December 31, 1964 Radio Corporation of Puerto Rico transferred all of its assets, subject to all of its liabilities, to ITT Cable and Radio, Inc.-- Puerto Rico.

<sup>2/</sup> Commenced operations December 23, 1964.

<sup>3/</sup> Includes a stock dividend valued at \$160,500. The amount of \$7.10 represents cash dividend paid.

<sup>4/</sup> Represents weighted average rate per \$100 par or stated value.

<sup>5/</sup> This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom, and has instead classified them as telephone message toll revenues (line 108 above).

<sup>6/</sup> Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

<sup>7/</sup> Data were not reported for Non-Bell companies.

<sup>8/</sup> Partly estimated.

<sup>9/</sup> Transiting messages are reported only by the system which first handles the message.

<sup>10/</sup> To avoid duplication 1,307,121 messages between the Hawaiian Islands and the United States have been excluded as these messages are included in the number of calls shown for American Telephone & Telegraph Co. The Hawaiian company's portion of revenue for these messages amounted to approximately \$9,500,000.

<sup>11/</sup> To avoid duplication 1,093,278 messages between Puerto Rico and the United States have been excluded as these messages are included in the number of calls shown for American Telephone & Telegraph Co. The Puerto Rican company's portion of revenue for these messages amounted to \$3,287,727.

<sup>12/</sup> Excludes 113,071 messages between the Virgin Islands and the United States on which related revenues were \$532,888, an unascertained number of messages between Puerto Rico and the United States which were handled by ITT Communications, Inc.-Virgin Islands and included in the number of calls shown for American Telephone & Telegraph Co., and 126,726 messages between Puerto Rico and the Virgin Islands which are included in the number of calls shown for ITT Cable and Radio, Inc.-Puerto Rico. The Virgin Islands company's portion of revenue from all the foregoing messages amounted to \$2,750,264.

<sup>13/</sup> Includes monthly charges and installation and move charges.

<sup>14/</sup> Data not tabulated as reports for most Non-Bell companies are incomplete.

( ) Deficit or other reverse item.

1/ As of November 1, 1965 the name of the Oregon Washington Telephone Co. was changed to United Telephone Co. of the Northwest.

2/ Represents weighted average amount per \$100 par or stated value.

3/ This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom and has instead classified them as telephone message toll revenues (line 108 above).

4/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."

5/ Data were not reported for Non-Bell companies.

6/ Partly estimated.

7/ Represents completed calls only.

8/ Transiting messages are reported only by the system which first handles the message.

9/ Includes monthly charges and installation and move charges.

10/ Data not tabulated as reports for most Non-Bell companies are incomplete.

( ) Deficit or other reverse item.

- 1/ This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom, and has instead classified them as telephone message toll revenues (line 108 above).
- 2/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."
- 3/ Data were not reported for Non-Bell companies.
- 4/ Partly estimated.
- 5/ Transiting messages are reported only by the system which first handles the message.
- 6/ Includes monthly charges and installation and move charges.
- 7/ Data not tabulated as reports for most Non-Bell companies are incomplete.

Note.--Certain data pertaining to the carriers included in this table are unavailable. Where such is the case the space provided for the information has been left blank as distinguished from insertion of a dash which means that "None" was reported.

- ( ) Deficit or other reverse item.
- 1/ Includes offsetting credit in the amount of \$137,200 for charges made to income for investment tax credits applicable to plant in Minnesota. Other offsetting credits in the amount of \$1,506,000 were made to deferred credits, item 51.
  - 2/ The amount of \$7,287,173 includes stock dividend amounting to \$3,976,026. The amount of \$10.00 represents cash dividend paid per \$100 par value.
  - 3/ Represents weighted average rate per \$100 par or stated value.
  - 4/ This company participates in wide area telephone service but has not determined and so classified the relatively minor amounts of revenue received therefrom, and has instead classified them as telephone message toll revenues (line 108 above).
  - 5/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."
  - 6/ Partly estimated.
  - 7/ This company uses liberalized depreciation in filing its Federal income tax return. It makes no advance provision in its accounts for the resulting tax differential.
  - 8/ The amount of \$3,306,000 includes stock dividend of \$1,200,000. The amount of \$8.70 represents cash dividend paid per \$100 par value.
  - 9/ The amount of \$1,686,400 includes stock dividend of \$653,826. The amount of \$29.76 represents cash dividend paid per \$100 par value.
  - 10/ The amount of \$2,048,370 includes stock dividend of \$807,385. The amount of \$8.80 represents cash dividend paid per \$100 par value.
  - 11/ The amount of \$2,230,129 includes stock dividend of \$650,973. The amount of \$22.50 represents cash dividends paid per \$100 par value.
  - 12/ Represents completed calls only.

Source: Annual reports, correspondence and carriers' records.

( ) Deficit or other reverse item.

- 1/ Includes Western Union's ocean-cable system to September 30, 1963 at which time it was sold to Western Union International, Inc.
- 2/ The comparability of 1965 data for overseas telegraph carriers with data for previous years is affected by the fact that data regarding South American and most Caribbean operations of all America Cables and Radio, Inc. ceased to be reported in that year.
- 3/ Includes bills and accounts payable to affiliates in the nature of long-term advances from affiliates.
- 4/ Data for the Western Union Telegraph Co. for years 1931-1963 are not segregable between domestic-telegraph and overseas telegraph operations, but are included with domestic-telegraph.
- 5/ Western Union's capital stock was changed effective April 22, 1952 from class A stock without par value to common stock with a par value of \$10 per share. The capital stock account was reduced \$92,562,682, representing the excess of the stated value of the previously recorded capital stock over the par value of the presently issued common stock, by a transfer to "Other capital surplus."
- 6/ Compiled from responses to Telegraph Division Order No. 12, annual reports, and correspondence. Represents principally data as estimated by reporting carriers on basis of actual counts for test periods.
- 7/ The number of messages shown for years prior to 1944 include press messages on an equated basis. For 1944 and subsequent years figures include press messages on an unequated basis.
- 8/ Includes depreciation and operating taxes.
- 9/ Recorded provision for Federal income taxes takes entire company operations into consideration including manufacturing or other non-communication activity.
- 10/ These figures are affected by the \$18,126,223 loss on the sale of the Western Union cables system recorded as a cables loss and the \$8,250,000 tax reduction therefrom recorded as a domestic telegraph gain.
- 11/ 1931-1934 number of employees at the end of June, 1935-1945 number of employees at the end of December.
- 12/ Employment figure for 1955 includes an estimated 777 employees assigned to non-communication activities transferred by a carrier to a non-reporting affiliate prior to the reporting date in 1956.

Note.--The data in this table are as reported by the carriers and include some estimates.

- 1/ The data shown under Domestic messages for the overseas telegraph carriers relate to domestic classification messages handled by such carriers between United States on the one hand and Canada and Mexico on the other.
- 2/ Represents that portion of transoceanic and marine messages which was transmitted between gateway points and points within the continental United States, Canada and Mexico and the domestic transmission revenues relating thereto. Accordingly, to avoid duplication the number of such messages has been excluded from the grand total.
- 3/ Excludes 252,322 marine messages handled during the year with related revenues of \$339,859. Such amounts are included under public, government, and press messages.
- 4/ Data relate to messages which did not originate in, terminate in, or transit the continental United States.

Note.—Data shown in this table are compiled from responses to the Commission's Rule 43.61 and represent all overseas message telegraph traffic which either originated in, terminated in, or transited the United States. The totals reported in this table differ from transoceanic traffic totals shown in Tables 21 and 30 for the reasons that (1) messages and words shown herein include overseas telegraph traffic handled by Western Union Telegraph Co. in the United States and exchanged with Canadian or Mexican carriers at the respective borders, which are reported in Tables 21 and 30 as "Domestic transmission of transoceanic messages", (2) traffic of the French Cable Company is included herein, but excluded from Tables 21 and 30, and (3) traffic which did not originate in, terminate in, or transit the continental United States has been omitted herein, but included in Tables 21 and 30.

( ) Indicates revenue loss.

1/ Represents traffic which originated at overseas points and destined to Canada or Mexico (outbound from United States), and similar traffic which originated in such places in North America and destined to overseas points (inbound to United States). This traffic was handled between such North American and overseas points by U.S. carriers via the contiguous United States.

Note.—Data reported in this table are compiled from responses to Commission Rule 43.61. The total revenues reported here differ from the amount of teleprinter exchange service (Telex) revenues in Table 30 for the following reasons: (1) Payments to domestic carriers for extension haul within the United States (48 contiguous states and the District of Columbia), when their facilities are used for this purpose (beyond the U.S. gateways for most part), are included herein but excluded in the revenues in Table 30. Such payments are recorded as reductions of revenues in the books of accounts of the carriers. However, they are included in the traffic tables because they are not readily assignable to overseas circuits. Such payouts by the overseas carriers amounted to \$2,703,119 in 1965. (2) Certain overseas carriers furnish telex service at foreign points which do not touch the United States in transmission, the revenues for which are included in Table 30, but excluded herein. (3) The telex traffic and revenues of the French Cable Company are included in this table but excluded from Table 30.

<sup>1/</sup> Index based on number of messages reported by the Bell companies only. Teletypewriter exchange service (TWX) was first offered by the Bell companies in 1931. Their 1965 revenues amounted to \$72,902,000. Western Union's domestic teletypewriter exchange service (Telex) began in 1958. Its 1965 revenues amounted to \$18,030,000.

<sup>2/</sup> Western Union and Bell System private line telegraph revenues indexed above do not include revenues from relatively new but rapidly growing private line services such as TELPAK, data transmission, alternate telephone and teletypewriter, and alternate telephone and data. Bell System TELPAK, for example, which commenced in February, 1961, produced \$129.1 million in 1965 and Western Union's TELPAK which commenced in June, 1962, produced \$3.7 million in 1965.

Note.—Principal domestic and overseas telegraph carriers included herein are those having annual operating revenues exceeding \$50,000.

( ) Deficit or reverse item.

- 1/ As of June 30, 1965 ITT World Communications Inc. purchased the net assets and operations in Puerto Rico and the Virgin Islands from its affiliate, All America Cables and Radio, Inc. On August 1, 1965 ITT World Communications Inc. sold its net assets and operations in the Republic of the Philippines to its affiliate, Globe Mackay Cable and Radio Corporation. The income accounts include the operating results of ITT World's branches in Puerto Rico and the Virgin Islands for the last six months of 1965 and its branch in Republic of Philippines for the first seven months of 1965.
- 2/ Western Union Telegraph Co. had an estimated net reduction in Federal income tax expense of \$5,520,000 arising from the utilization, for income tax purposes, but not for accounting purposes, of a liberalized depreciation method recognized by Section 167 of the Internal Revenue Code of 1954. It also had an estimated increase in Federal income tax expense of \$89,000 arising from the use in prior years of five-year amortization authorized under Section 168 of the Internal Revenue Code of 1954. The accumulated net balance at December 31, 1965 of liberalized depreciation and five-year amortization income tax differentials accounted for on the "flow through" basis was \$33,297,000.
- 3/ The liberalized depreciation income tax differentials accumulated in the accounts of Mackay (ITT World) during the years 1954 through 1960 are being amortized in equal amounts over ten years beginning January 1, 1962 to Provision for Federal Income Taxes. ITT World Communications Inc. had for the year 1965 a net reduction in Federal income tax expense of \$240,000, arising from the utilization for tax purposes of liberalized depreciation which was accounted for on the "flow through" basis. The accumulated amount of liberalized depreciation income tax differentials accounted for on the "flow through" basis for the years 1961 to 1965, inclusive, was \$741,000.
- 4/ Investment tax credits under the Revenue Act of 1962 of approximately \$1,100,000 were not utilized by Western Union Telegraph Co. due to the absence of tax liability for 1965. The unused investment tax credit carryover, available for tax reduction in subsequent years, is estimated at \$3,600,000.
- 5/ ITT World Communications Inc. realized during 1965 investment credits in the amount of \$480,000. They were given immediate total flow through treatment.
- 6/ Press Wireless, Inc. realized during 1965 investment credits in the amount of \$4,078. They were given immediate total flow through treatment.
- 7/ Represents principally revenues from messages which did not originate in, terminate in, or transit the continental United States.
- 8/ Includes territories and possessions of the United States except the Canal Zone.
- 9/ Includes domestic classification messages (primarily Canadian and Mexican) handled by the overseas carriers.
- 10/ Includes the domestic transmission of marine messages.
- 11/ Includes (1) telegraph traffic which originated in, terminated in, or transited the continental United States and its possessions, and (2) traffic handled between points located outside the continental United States and its possessions.
- 12/ Excludes the domestic transmission of marine messages.
