INTRODUCTION

This issue of Statistics of Communications Common Carriers contains financial and operating data for the year 1960. The information was taken principally from annual and monthly reports filed by the carriers with the Federal Communications Commission. This publication has been issued annually since 1939. Previous to 1957 it was titled "Statistics of the Communications Industry in the United States".

All communications carriers engaged in interstate or foreign communication service, except those so engaged solely through connection with the facilities of another unaffiliated carrier, are subject to all the common carrier provisions of the Communications Act of 1934, as amended. Telephone companies having annual operating revenues exceeding \$100,000 and wire-telegraph, ocean-cable and radiotelegraph carriers whose annual operating revenues exceed \$50,000 are required to file annual reports with the Commission. Telephone companies required to file annual reports are classified into Class A, those having annual revenues exceeding \$250,000, and Class B, those having annual revenues exceeding \$100,000 but not more than \$250,000. Companies controlling communications common carriers whose annual revenues exceed \$2,500,000 are also required to file annual reports. Annual reports for the year 1960 were filed by 61 telephone carriers, 9 telegraph carriers and 7 controlling companies. Telephone carriers whose annual operating revenues exceed \$1,000,000 and telegraph carriers having annual operating revenues exceeding \$250,000 are also required to file condensed monthly reports of financial and operating data.

Part I of this volume contains information concerning all reporting carriers.

Part II contains financial and operating data relating to telephone carriers. Summaries for all subject telephone carriers and for the Bell companies are included, as well as data by individual carriers. "Bell companies" as used in this publication represents the American Telephone and Telegraph Company, its principal telephone subsidiaries, and The Cincinnati and Suburban Bell Telephone Company and The Southern New England Telephone Company. It is estimated that, on the basis of assets and of revenues, the telephone carriers reporting to the Commission represent about 90 percent of the telephone industry in the United States. The gross book cost of communication plant of the reporting telephone companies was \$25,724,146,000 as of

INTRODUCTION -- continued

December 31, 1960, as compared with \$23,697,850,000 as of December 31, 1959, an increase of 9 percent. The total operating revenues reported by these carriers for the year 1960 were \$8,367,078,000 as compared with \$7,800,034,000 for the year 1959, an increase of 7 percent; and the total operating expenses, including depreciation, amounted to \$5,026,257,000 as compared with \$4,728,748,000 for the preceding year, an increase of 6 percent. In compiling summary figures for telephone companies duplications between Bell companies with respect to securities, receivables, payables and items of income and expense, except in minor instances, have been eliminated.

Data relating to the larger non-subject telephone carriers, supplied voluntarily by those carriers, are shown in Table 17 of this issue.

Part III of this volume contains data relating to domestic and international telegraph carriers. The telegraph carriers reporting to the Commission, along with record communications business reported by telephone companies, represent practically all of the telegraph industry in the United States. The gross book cost of communication plant of the domestic telegraph carrier amounted to \$398,023,000 as of December 31, 1960 as compared with \$380,216,000 as of December 31, 1959, an increase of 5 percent. The gross book cost of communication plant of international telegraph carriers was \$163,798,000 as of December 31, 1960 as compared with \$157,557,000 as of December 31, 1959, an increase of 4 percent. The operating revenues of the domestic telegraph carrier for the year 1960 amounted to \$262,365,000 and the operating expenses, including depreciation, amounted to \$236,294,000 as compared with \$260,849,000 and \$226,375,000, respectively, representing increases of less than 1 percent in revenues and 4 percent in expenses over the year 1959. The operating revenues of international telegraph carriers for the year 1960 amounted to \$86,976,000 and the operating expenses, including depreciation, amounted to \$70,381,000 as compared with \$84,377,000 and \$65,393,000 respectively, representing increases of 3 percent in revenues and 8 percent in expenses over the year 1959.

Part IV of this volume shows the intercorporate relations of all the subject carriers and controlling companies reporting to the Commission.

Note:--See tables 15, 16, and 31 for data of individual carriers.

() Indicates reverse item.

1/ Intercompany duplications, except in minor instances, have been eliminated.

2/ Data relating to Western Union's domestic telegraph and ocean-cable systems have been shown separately under domestic telegraph carrier and ocean-cable carriers insofar as possible.

3/ Includes 52 class A and 9 class B telephone carriers.

4/ Represents the domestic telegraph system of Western Union Telegraph Co.

5/ Includes Western Union's ocean-cable system and two other ocean-cable carriers.

6/ These data for The Western Union Telegraph Co. are not segregable between its domestic telegraph and ocean-cable systems. Amounts for the entire company have been shown under domestic telegraph carrier.

7/ Includes company, service, and private-line telephones.

8/ Partly estimated by reporting carriers. The number of telegraph messages shown include the domestic transmission of transoceanic and marine messages.

1/ Telephone carriers are classified according to their revenues for the three immediately preceding years as follows:

Class A.--Carriers having annual operating revenues exceeding \$250,000.

Class B.--Carriers having annual operating revenues exceeding \$100,000, but not more than \$250,000.

2/ Carriers subject to all the common carrier provisions of the Communications Act of 1934, as amended, and having annual operating revenues exceeding \$100,000 are required to file annual reports. Those carriers having annual revenues exceeding \$1,000,000 are also required to file monthly reports of revenues and expenses.

3/ Radiotelephone carrier.

4/ Richmond Home Telephone Company, Inc. merged into General Telephone Company of Indiana, Inc. as of December 22, 1960.

Note.--In addition to the above carriers subject to the reporting jurisdiction of the Commission, data were obtained from certain of the larger non-subject telephone carriers and are tabulated in Table 17.

Source: Annual reports filed with the Federal Communications Commission. In a few instances data from unofficial sources or estimates were used.

Note.—Intercompany duplications between the Bell companies have been eliminated, except profits and losses on intercompany transfers of plant.

- * The difference in the number of carriers reporting to the Commission for each year is due to mergers, reclassifications, etc.
- ^{1/} In comparing data in this table, consideration may be given to the minor effect of the revision of the Uniform System of Accounts, effective January 1, 1937, resulting in certain changes in and rearrangements of both the balance sheet and income statements.
- ^{2/} Includes local service revenues, toll service revenues, and miscellaneous revenues.
- ^{3/} Includes company, service and private line telephones.
- ^{4/} Partly estimated.
- ^{5/} The numbers reported for the years 1935-1942 are as of the end of December. The numbers reported for the years 1943-1960 are as of the end of October.
- ^{6/} Represents total compensation for the year divided by the number of employees.
- ^{7/} During the years 1949-1960 many calls were reclassified from "toll" to "local" due to the enlargement of numerous local calling areas.

Note:--Amounts in "Balance at beginning of year" columns will not in all accounts, or in total, agree with amounts in "Balance at end of year" columns from the 1959 edition of this publication. This is for the reason that all the Bell companies, and many of the non-Bell companies, reported 1960 beginning of year balances which reflected the elimination of the right-of-way account (FCC Docket 12760) and the transfer of certain amounts from the accounts for station apparatus and station connections to the account for large private branch exchanges and to material and supplies account (FCC Docket 12811).

Notes:--The above data include the number of overseas telephone calls handled via radio and via North Atlantic, Hawaii and Caribbean telephone cables. AT&T reports its volume of overseas telephone traffic transmitted to, and received from each point of communication, which may be either (1) the foreign country, or overseas point, of destination or origin of the call or (2) an intermediate country or overseas point through which the call is relayed. Therefore, the number of calls reported herein with respect to a particular place is not necessarily the number of calls originating or terminating with that place. The absence of certain foreign countries in the above listing indicates that no direct cable or radiotelephone service was provided therewith in 1960. Any calls that may have been handled with such countries during 1960 are included in the traffic of the intermediate country through which indirect service was rendered. Although telephone service between the 48 contiguous states and Alaska is by means of trans-oceanic cables, such service is not classified as overseas telephone service.

() Deficit or other reverse item.

- 1/ The intercompany duplications between the Bell companies with respect to securities, receivables, payables, and items of income and expense, except in minor instances, have been eliminated. In the elimination of intercompany security holdings, the difference between the aggregate book cost as reported by the carriers owning such securities and the reported aggregate par or stated value, including ascertainable discounts and premiums applicable thereto, has been applied as a net reduction of the combined surplus accounts of the carriers.
- 2/ Includes the American Telephone and Telegraph Co., its principal telephone subsidiaries, and two associated companies, The Southern New England Telephone Company and The Cincinnati and Suburban Bell Telephone Company.
- 3/ Reflects a reduction of \$5,369,818 on account of netting receivables from and payables to certain affiliated companies.
- 4/ Does not include \$352,506,000 representing proportionate interest in the net assets of subsidiaries not consolidated in excess of book cost of the investments in such subsidiaries, which is added to book cost of investments and to surplus in consolidated balance sheets published by the Bell System.
- 5/ Does not include \$56,890,000 proportionate interest in earnings (after dividends) of subsidiaries not consolidated, which is included in other income in consolidated income statements published by the Bell System.
- 6/ Represents Long Lines Department share of \$1,744,209,000 total revenues from toll business handled jointly with Bell operating and other telephone companies.
- 7/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."
- 8/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.
- 9/ Partly estimated.
- 10/ Transiting messages are reported only by the system which first handles the message.
- 11/ Includes monthly charges and installation and move charges.
- 12/ Complete data not available.
- 13/ Does not include data for group life insurance, financed jointly by the companies and the participating employees.

() Deficit or other reverse item.

^{1/} Represents weighted average rate per \$100 par or stated value.

^{2/} Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

^{3/} Partly estimated.

^{4/} Transiting messages are reported only by the system which first handles the message.

^{5/} This company handled 545,932 messages between the United States and Cuba. Since these messages are included in the number shown for American Telephone & Telegraph Company, to avoid duplication they have not been shown here. The Cuban company's portion of revenue for these messages amounted to \$403,324.

^{6/} Includes monthly charges and installation and move charges.

^{7/} Data not tabulated as reports for most non-Bell companies are incomplete.

() Deficit or other reverse item.

- 1/ Richmond Home Telephone Co., Inc. was merged into General Telephone Company of Indiana, Inc. on December 22, 1960, however, for accounting purposes the acquisition was effected as of December 31, 1960.
- 2/ Represents an adjustment in the physical inventory.
- 3/ Represents weighted average rate per \$100 par or stated value.
- 4/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."
- 5/ Partly estimated.
- 6/ Data not reported.

- 7/ Represents completed calls only.
- 8/ Transiting messages are reported only by the system which first handles the message.
- 9/ To avoid duplication 363,480 messages between Puerto Rico and the United States have been excluded as these messages are included in the number of calls shown for American Telephone & Telegraph Company. The Puerto Rican company's portion of revenue for these messages amounted to \$1,956,883.
- 10/ Includes monthly charges and installation and move charges.
- 11/ Data not tabulated as reports for most non-Bell companies are incomplete.

Note.--Certain data pertaining to the carriers included in this table are unavailable. Where such is the case the space provided for the information has been left blank as distinguished from insertion of a dash which means that "None" was reported.

() Deficit or other reverse item.

- 1/ The depreciation to be claimed in the Federal income tax for the year 1960 exceeds by \$304,463 the depreciation reported in the financial statements. No provision has been made in the accounts for the reduction in taxes attributable to this difference.
- 2/ Represents weighted average rate per \$100 par or stated value.
- 3/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."
- 4/ Partly estimated.
- 5/ At end of December.
- 6/ Represents "Telephones plant adjustment."
- 7/ This company uses liberalized depreciation in filing its Federal income tax returns. It makes no provisions in its accounts for the resulting tax differential. This differential for 1960 was a reduction in taxes payable of \$600,000. The cumulative differential for 1954-1960 was a reduction of \$2,013,304.
- 8/ Effective January 1, 1960, this company discontinued use of liberalized depreciation for Federal income tax purposes. The accumulated provision for liberalized depreciation income tax differentials is being amortized to tax expense and the \$40,000 credit to expense in 1960 represents the excess of such amortization over the income tax differentials from five-year tax depreciation under Certificates of Necessity which is being continued.
- 9/ Amount per \$100 book value of common stock.
- 10/ Represents completed calls only.

PART III

**DOMESTIC AND INTERNATIONAL
TELEGRAPH CARRIERS**

Table 18.--List of principal domestic and international telegraph carriers reporting to the Commission for the year ended December 31, 1960 whose reports were used in the statistical tabulations

Name of carrier	Headquarters	Type of carrier	Type of report filed 1/
All America Cables & Radio, Inc.	New York, N. Y.	Ocean-cable	Annual, monthly
Commercial Cable Co.	New York, N. Y.	Ocean-cable	Annual, monthly
Globe Wireless Ltd.	New York, N. Y.	Radiotelegraph	Annual, monthly
Mackay Radio & Telegraph Co.	New York, N. Y.	Radiotelegraph	Annual, monthly
Press Wireless, Inc.	New York, N. Y.	Radiotelegraph	Annual, monthly
RCA Communications, Inc.	New York, N. Y.	Radiotelegraph	Annual, monthly
Tropical Radio Telegraph Co.	Boston, Mass.	Radiotelegraph	Annual, monthly
United States-Liberia Radio Corporation.	Akron, Ohio	Radiotelegraph	Annual
Western Union Telegraph Co.	New York, N. Y.	Wire-telegraph and ocean-cable	Annual, monthly

Note.--Principal telegraph carriers are those having average annual operating revenues exceeding \$50,000. In addition to the above companies, telephone carriers for which detailed data are tabulated in Table 15 herein, have substantial amounts of telegraph revenues.

1/ Carriers subject to all of the common carrier provisions of the Communications Act of 1934, as amended, and whose operating revenues exceed \$50,000, are required to file annual reports. Telegraph carriers whose annual operating revenues exceed \$250,000 are also required to file monthly reports of revenues and expenses.

Source: Annual reports, correspondence and carriers' records.

Note:—Data for earlier years have been restated on the basis of the currently effective systems of accounts (Radiotelegraph effective January 1, 1940, wire-telegraph and ocean-cable effective January 1, 1943).

- () Deficit or other reverse item.
- 1/ Includes Western Union's ocean-cable system.
- 2/ Includes bills and accounts payable to affiliates in the nature of long-term advances from affiliates.
- 3/ Data for the Western Union cable system are not segregable between domestic-telegraph and ocean-cable operations, but are included with domestic-telegraph.
- 4/ Western Union's capital stock was changed effective April 22, 1952 from class A stock without par value to common stock with a par value of \$10 per share. The capital stock account was reduced \$92,562,682, representing the excess of the stated value of the previously recorded capital stock over the par value of the presently issued common stock, by a transfer to "Other capital surplus."
- 5/ Compiled from responses to Telegraph Division Order No. 12, annual reports, and correspondence. Represents principally data as estimated by reporting carriers on basis of actual counts for test periods.
- 6/ The number of messages shown for years prior to 1944 include press messages on an equated basis. For 1944 and subsequent years figures include press messages on an unequated basis.
- 7/ Includes depreciation and operating taxes.
- 8/ Recorded provision for Federal income taxes takes entire company operations into consideration including manufacturing or other non-communication activity.
- 9/ 1929-1934 number of employees at the end of June, 1935-1945 number of employees at the end of December.
- 10/ Since about the early forties certain employees of Mackay Radio and Telegraph Co., All America Cables & Radio, Inc. and Commercial Cable Co. have served more than one of the companies. The amounts of compensation reported for each of these companies are after intercompany charges and credits. Consequently, although number of employees and the compensation paid are shown separately for ocean-cable and radiotelegraph, they are not considered comparable in the more recent years, and for this reason average compensation per employee is shown on a combined basis only.
- 11/ Employment figure for 1955 includes an estimated 777 employees assigned to non-communication activities transferred by a carrier to a non-reporting affiliate prior to the reporting date in 1956.

Note:--The data in this table are as reported by the carriers and include some estimates.

1/ Includes the cable system of the Western Union Telegraph Co.

2/ The data shown under Domestic messages for the international carriers relate to domestic classification messages handled by such carriers between United States on the one hand and Canada and Mexico on the other.

3/ Represents that portion of transoceanic and marine messages which was transmitted between gateway points and points within the continental United States, Canada and Mexico and the domestic transmission revenues relating thereto. Accordingly, to avoid duplication the number of such messages has been excluded from the grand total.

4/ Excludes 313,889 marine messages handled during the year with related revenues of \$311,686. Such amounts are included under public, government, and press messages.

5/ Data relate to messages which did not originate in, terminate in, or transit the continental United States.

Note.—Data shown in this table are compiled from responses to the Commission's Order No. 85 and represent all international message telegraph traffic which either originated in, terminated in, or transited the United States. The total reported herein exceeds the amount of transoceanic message traffic reported in Tables 21 and 31 for the reason that the messages and words shown herein include international telegraph traffic handled by Western Union landlines in the United States and exchanged with Canadian or Mexican carriers at the respective border. This traffic is reported in Tables 21 and 31 as "Domestic transmission of transoceanic messages." In addition, the traffic of the French Telegraph Cable Co. is included in this table but excluded from Tables 21 and 31.

() Indicates revenue loss.

Note.—Principal telegraph, cable, and radiotelegraph carriers included herein are those having annual operating revenues exceeding \$50,000.

() Deficit or reverse item.

- 1/ Balance sheet data, with the exception of the plant and related reserves, are not segregated between the domestic-telegraph and ocean-cable systems.
- 2/ As a result of including the segregated balance-sheet figures for ocean-cable plant and related reserves of Western Union's ocean-cable system under International telegraph-ocean-cable without contra amounts, the totals of the asset side of the balance sheet for ocean-cable and ocean-cable and radiotelegraph carriers combined are \$16,726,227 more than the respective totals of the liability side. Conversely, this same amount is included in the liability side, but excluded from the asset side of the balance sheet for Western Union's Domestic-telegraph system.
- 3/ There was an estimated net reduction in Federal income tax expense of \$2,470,000 arising from the utilization, for income tax purposes but not for accounting purposes, of a liberalized depreciation method recognized by Section 167 of the Internal Revenue Code of 1954. There was also an estimated net increase in Federal income tax expense of \$216,000 arising from the use in prior years of five-year amortization authorized under Section 168 of the Internal Revenue Code of 1954. The accumulated net balance at December 31, 1960 of liberalized depreciation and five-year amortization income tax differentials accounted for on the "flow through" basis was \$11,703,000.
- 4/ Commercial Cable Company in 1960 was responsible for \$38,399 of income tax differentials from liberalized depreciation. It was responsible for an accumulation of such differentials amounting to \$155,000 at December 31, 1960. These differentials are not reflected in the accounts of Commercial but are in the Provision for Federal income taxes and the Tax accruals accounts of All America Cables and Radio, Inc. and Mackay Radio and Telegraph Company, affiliated companies included in a consolidated Federal income tax return and who contributed taxable income thereto.
- 5/ Operating revenues and expenses are overstated to the extent of \$244,505, representing rent on leased wires charged by the domestic-telegraph system of Western Union to its ocean-cable system.
- 6/ All interest on long term debt (\$1,389,539) is shown under Domestic, no allocation between domestic and cables operations having been made.
- 7/ The amount of the net income transferred to earned surplus of the ocean-cable system of Western Union has been added to the amount of net income transferred to earned surplus of the domestic telegraph system to determine the balance sheet item of the company's unappropriated earned surplus of \$110,704,136.
- 8/ Represents revenues from messages which did not originate in, terminate in, or transit the United States.
- 9/ See item 109 and footnote 11.
- 10/ Represents revenue from International Metered Communications service.
- 11/ Includes \$183,652 revenue from international teletypewriter exchange service.
- 12/ Includes territories and possessions of the United States except the Canal Zone.
- 13/ Includes domestic classification messages (primarily Canadian and Mexican) handled by the international carriers.
- 14/ Includes the domestic transmission of marine messages.
- 15/ Includes (1) telegraph traffic which originated in, terminated in, or transited the United States and its possessions, and (2) traffic handled between points located outside the United States and its possessions.
- 16/ Excludes the domestic transmission of marine messages.
- 17/ Certain employees of Mackay Radio & Telegraph Co., All America Cables & Radio, Inc., and Commercial Cable Co. serve more than one of the companies. The amounts of compensation reported for each of these companies are after intercompany charges and credits. In order to show the proper relationship between the number of employees and the compensation paid it is necessary to combine the figures of the three companies. As of October 31, 1960, 5,419 persons were employed by these companies. The total compensation for the year was \$20,045,275.

**HOLDING COMPANIES AND
INTERCORPORATE RELATIONS**

Table 32.--Intercorporate relations of communications carriers and controlling companies, December 31, 1960

Note.—Carriers controlled by other companies are indicated by indentation from the margin. For the purpose of this table, control is defined as the ownership of more than 50% of a carrier's common stock. Information shown is principally from annual reports filed with the Commission. In some instances data were obtained from unofficial sources.

- 1/ Relatively minor amounts of revenues from U. S. sources from telephone operations of RCA Communications, Inc. in Guam (and Hawaii, prior to October 9, 1957) and of All America Cables and Radio, Inc. in the Virgin Islands are not included in this tabulation.
- 2/ Includes the carrier's share of the overseas service charges attributable to the landline haul in the U. S., except that for the years 1951-1956 such share on Cuban calls is omitted.
- 3/ The private line revenues of A.T. & T. Co. for 1960 include an estimated \$850,000 received from international telegraph carriers for the rental of overseas communications channels used by the lessees for the services offered by them. Private line revenues of Radio Corporation of Puerto Rico do not include its share of revenues from leases to the international telegraph carriers. It has not been ascertained whether or not private line revenues of Hawaiian Telephone Co. include such revenues.
- 4/ The revenues of Cuban American Telephone & Telegraph Co. were affected by changes in operating arrangements made when the "over-the-horizon" microwave radio system (owned jointly by A.T. & T. Co. and Radio Corporation of Cuba) between the U. S. and Cuba was placed in service September 12, 1957.
- 5/ The first transoceanic cable was placed in service September 25, 1956.
- 6/ The Hawaiian cable, in which the Hawaiian Telephone Co. owns an interest, was placed in operation October 9, 1957. Prior to that date the Hawaiian-U.S. service was via radio and the Hawaiian radio facilities were supplied by RCA Communications, Inc.
- 7/ The telephone cable between U. S. and Puerto Rico was placed in operation January 26, 1960.
