INTRODUCTION

This issue of Statistics of Communications Common Carriers contains financial and operating data for the year 1958. The information was taken principally from annual and monthly reports filed by the carriers with the Federal Communications Commission. This publication has been issued annually since 1939. Previous to 1957 it was titled "Statistics of the Communications Industry in the United States".

All communications carriers engaged in interstate or foreign communication service, except those so engaged solely through connection with the facilities of another unaffiliated carrier, are subject to all the common carrier provisions of the Communications Act of 1934, as amended. Telephone companies having annual operating revenues exceeding \$100,000 and wire-telegraph, ocean-cable and radiotelegraph carriers whose annual operating revenues exceed \$50,000 are required to file annual reports with the Commission. Telephone companies required to file annual reports are classified into Class A, those having annual revenues exceeding \$250,000, and Class B, those having annual revenues exceeding \$100,000 but not more than \$250,000. Companies controlling communications common carriers whose annual revenues exceed \$2,500,000 are also required to file annual reports. Annual reports for the year 1958 were filed by 62 telephone carriers, 9 telegraph carriers and 6 controlling companies. Telephone carriers whose annual operating revenues exceed \$1,000,000 and telegraph carriers having annual operating revenues exceeding \$250,000 are also required to file condensed monthly reports of financial and operating data.

Part I of this volume contains information concerning all reporting carriers.

Part II contains financial and operating data relating to telephone carriers. Summaries for all subject telephone carriers and for the Bell Companies are included, as well as data by individual carriers. "Bell Companies" as used in this publication represents the American Telephone and Telegraph Company, its Principal Telephone Subsidiaries, and The Cincinnati and Suburban Bell Telephone Company and The Southern New England Telephone Company. It is estimated that, on the basis of assets and of revenues, the telephone carriers reporting to the Commission represent more than 90 per cent of the telephone industry in the United States. The gross book cost of communication plant of the reporting telephone companies was \$22,003,484,000 as of December 31, 1958, as compared with \$20,321,291,000 as of December 31, 1957, an increase of 8 percent. The total operating

INTRODUCTION -- Continued

revenues reported by these carriers for the year 1958 were \$7,141,729,000 as compared with \$6,642,846,000 for the year 1957, an increase of 8 percent; and the total operating expenses, including depreciation, amounted to \$4,461,697,000 as compared with \$4,377,400,000 for the preceding year, an increase of 2 percent. In compiling summary figures for telephone companies duplications between Bell System companies with respect to securities, receivables, payables and items of income and expense, except in minor instances, have been eliminated.

Data relating to the larger non-subject telephone carriers, obtained by inquiry to those carriers and from various public sources, are shown in Table 17 of this issue.

Part III of this volume contains data relating to domestic and international telegraph carriers. The telegraph carriers reporting to the Commission, along with record communications business reported by telephone companies, represent practically all of the telegraph industry in the United States. The gross book cost of communication plant of the domestic telegraph carrier amounted to \$364,498,000 as of December 31, 1958 as compared with \$350,860,000 as of December 31, 1957, an increase of 4 percent. The gross book cost of communication plant of international telegraph carriers was \$154,438,000 as of December 31, 1958 as compared with \$149,440,000 as of December 31, 1957, an increase of 3 percent. The operating revenues of the domestic telegraph carrier for the year 1958 amounted to \$240,729,000 and the operating expenses, including depreciation, amounted to \$216,821,000 as compared with \$245,549,000 and \$220,234,000, respectively, representing decreases of 2 percent in both revenues and expenses under the year 1957. The operating revenues of international telegraph carriers for the year 1958 amounted to \$77,281,000 and the operating expenses, including depreciation, amounted to \$61,832,000 as compared with \$76,845,000 and \$61,177,000 respectively, representing increases of 1 percent in both revenues and expenses over the year 1957.

Part IV of this volume shows the intercorporate relations of all the carriers and controlling companies reporting to the Commission.

() Indicates reverse item.

^{1/} Intercompany duplications, except in minor instances, have been eliminated.

^{2/} Data relating to Western Union's domestic telegraph and ocean-cable systems have been shown separately under domestic telegraph carrier and ocean-cable carriers insofar as possible.

^{3/} Includes 54 class A and 8 class B telephone carriers.

^{4/} Represents the domestic telegraph system of Western Union Telegraph Co.

^{5/} Includes Western Union's ocean-cable system and two other ocean-cable carriers.

^{6/} These data for The Western Union Telegraph Co. are not segregable between its domestic telegraph and ocean-cable systems. Amounts for the entire company have been shown under domestic telegraph carrier.

^{7/} Includes company, service, and private-line telephones.

^{8/} Partly estimated by reporting carriers. The number of telegraph messages shown include the domestic transmission of transoceanic and marine messages.

1/ Telephone carriers are classified according to their revenues for the three immediately preceding years as follows:

Class A.--Carriers having annual operating revenues exceeding \$250,000.

Class B.--Carriers having annual operating revenues exceeding \$100,000, but not more than \$250,000.

2/ Carriers subject to all the common carrier provisions of the Communications Act of 1934, and having annual operating revenues exceeding \$100,000, are required to file annual reports. Those carriers having annual operating revenues exceeding \$1,000,000 are also required to file monthly reports of revenues and expenses.

3/ Radiotelephone carrier.

4/ Union Telephone Company was dissolved and its assets distributed to the sole stockholder, Indiana Bell Telephone Company, Inc. effective November 30, 1958.

Note.--In addition to the above carriers subject to the reporting jurisdiction of the Commission, data were obtained from certain of the larger non-subject telephone carriers and are tabulated in Table 17.

Non-Bell.

Note.—The exchange areas are generally larger than the corporate areas of the cities they serve.

- 1/ Households with service are estimated as residence main plus apartment house PBX telephones, etc.; hence, overstatement results from: (1) more than one main telephone per dwelling; (2) one household with telephones in more than one dwelling; (3) residence service to nonhouseholds (e.g., lodging houses). Furthermore, an unknown but appreciable underenumeration of households occurs in censuses. All of these factors tend to overstate the proportion of households with telephones.
- 2/ Balance of city served by Holyoke exchange.
- 3/ Additional exchanges also primarily serving the city of Los Angeles. Certain other exchanges also serve a portion of Los Angeles.
- 4/ Additional exchanges also primarily serving the city of San Diego.
- 5/ This non-Bell exchange serves more than one-half the population of the city of Torrance, and a considerable area outside the city.

Source: Annual reports filed with the Federal Communications Commission. In a few instances data from unofficial sources or estimates were used.

Note.—Intercompany duplications between the Bell companies have been eliminated, except profits and losses on intercompany transfers of plant.

* The difference in the number of carriers reporting to the Commission for each year is due to mergers, reclassifications, etc.

1/ In comparing data in this table, consideration may be given to the minor effect of the revision of the Uniform System of Accounts, effective January 1, 1937, resulting in certain changes in and rearrangements of both the balance sheet and income statements.

2/ Includes local service revenues, toll service revenues, and miscellaneous revenues.

3/ Includes company, service and private line telephones.

4/ Partly estimated.

5/ The numbers reported for the years 1935-1942 are as of the end of December. The numbers reported for the years 1943-1958 are as of the end of October.

6/ Represents total compensation for the year divided by the number of employees.

7/ During the years 1949-1958 many calls were reclassified from "toll" to "local" due to the enlargement of numerous local calling areas.

Note:--The above data include the number of overseas telephone calls handled via radio and via North Atlantic, Hawaii and Cuba telephone cables. AT&T reports its volume of overseas telephone traffic transmitted to, and received from each point of communication, which may be either (1) the foreign country, or overseas point, of destination or origin of the call or (2) an intermediate country or overseas point through which the call is relayed onward. Therefore, the number of calls reported herein with respect to a particular place is not necessarily the number of calls originating or terminating with that place. The absence of certain foreign countries in the above listing indicates that no direct cable or radiotelephone service was provided therewith in 1958. Any calls that may have been handled with such countries during 1958 are included in the traffic of the intermediate country through which indirect service was rendered. Although telephone service between the 48 contiguous states and Alaska is by means of trans-oceanic cables, such service is not classified as overseas telephone service.

() Deficit or other reverse item.

1/ The intercompany duplications between the Bell companies with respect to securities, receivables, payables, and items of income and expense, except in minor instances, have been eliminated. In the elimination of intercompany security holdings, the difference between the aggregate book cost as reported by the carriers owning such securities and the reported aggregate par or stated value, including ascertainable discounts and premiums applicable thereto, has been applied as a net reduction of the combined surplus accounts of the carriers.

2/ Includes the American Telephone and Telegraph Co., its principal telephone subsidiaries, and two affiliated companies, The Southern New England Telephone Co. and The Cincinnati and Suburban Bell Telephone Co.

3/ Reflects a reduction of \$4,127,962 on account of netting receivables from and payables to certain affiliated companies.

4/ Does not include \$255,343,602, representing proportionate interest in the net assets of subsidiaries not consolidated in excess of book cost of the investments in such subsidiaries, which is added to the book cost of investments and to surplus in consolidated balance sheets published by the Bell System.

5/ Does not include \$25,409,000, proportionate interest in earnings (after dividends) of subsidiaries not consolidated, which is included in other income in consolidated income statements published by the Bell System.

6/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

7/ Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.

8/ Partly estimated.

9/ Transiting messages are reported only by the system which first handles the message.

10/ Includes monthly charges and installation and move charges.

11/ Complete data not available.

12/ Does not include data for group life insurance, financed jointly by the companies and the participating employees.

() Deficit or other reverse item.

^{1/} Includes credit items "Telephone franchise requirements" and "Expenses charged construction."^{2/} Includes only phantom circuit on transposed aerial wire; miles of phantom circuit on wire in cable not available.^{3/} Partly estimated.^{4/} Transiting messages are reported only by the system which first handles the message.^{5/} This company handled 556,217 messages between the United States and Cuba. Since these messages are included in the number shown for American Telephone & Telegraph Company, to avoid duplication they have not been shown here. The Cuban company's portion of revenue for these messages amounted to \$736,317.^{6/} Includes monthly charges and installation and move charges.^{7/} Data not tabulated as reports for most non-Bell companies are incomplete.

() Deficit or other reverse item.

1/ The claiming of liberalized depreciation for income tax purposes was discontinued in 1958 retroactively to January 1, 1957. The accumulated provision for liberalized depreciation income tax differentials at December 31, 1957 was reduced in 1958 by the amount of the 1957 accruals by transfer to accrued taxes payable.

2/ Represents weighted average rate per \$100 par or stated value.

3/ Includes credit items "Telephone franchise requirements" and "Expenses charged construction."

4/ Partly estimated.

5/ Transiting messages are reported only by the system which first handles the message.

6/ Includes monthly charges and installation and move charges.

7/ Data not tabulated as reports for most non-Bell companies are incomplete.

3/ Includes only phantom circuit on transposed serial wire; miles of phantom circuit on wire in cable not available.

4/ Partly estimated.

5/ Transiting messages are reported only by the system which first handles the message.

6/ To avoid duplication 329,275 messages between the Hawaiian Islands and the United States have been excluded as these messages are included in the number of calls shown for American Telephone & Telegraph Company. The Hawaiian company's portion of revenue for these messages amounted to \$1,426,012.

7/ Includes monthly charges and installation and move charges.

8/ Data not tabulated as reports for most non-Bell companies are incomplete.

() Deficit or other reverse item.

- 1/ The Union Telephone Company was dissolved on November 30, 1958. All assets and liabilities were assumed by the Indiana Bell Telephone Company, Inc., the sole stockholder.
- 2/ The claiming of liberalized depreciation for income tax purposes was discontinued in 1958 retroactively to January 1, 1957. The accumulated provision for liberalized depreciation income tax differentials at December 31, 1957 was reduced in 1958 by the amount of the 1957 accruals by transfer to accrued taxes payable.
- 3/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."

- 4/ Partly estimated.
- 5/ Not reported.
- 6/ Represents completed calls only.
- 7/ Transiting messages are reported only by the system which first handles the message.
- 8/ To avoid duplication 159,723 messages between Puerto Rico and the United States have been excluded as these messages are included in the number of calls shown for American Telephone & Telegraph Company. The Puerto Rican company's portion of revenue for these messages amounted to \$818,050.
- 9/ Includes monthly charges and installation and move charges.
- 10/ Data not tabulated as reports for most non-Bell companies are incomplete.

Note.--Certain data pertaining to the carriers included in this table are unavailable. Where such is the case the space provided for the information has been left blank as distinguished from insertion of a dash which means that "None" was reported.

() Deficit or other reverse item.

- 1/ The depreciation to be claimed in the Federal income tax return for the year 1958 exceeds by \$496,869 the depreciation reported in the financial statements. No provision has been made in the accounts for the reduction in taxes attributable to this difference. For tax purposes the declining balance method was used in computing depreciation on certain assets for the years 1954, 1955 and 1956. The income tax differentials relate to the use of that accelerated method, which was discontinued effective with the year 1957.
- 2/ The claiming of liberalized depreciation for income tax purposes was discontinued in 1958 retroactively to January 1, 1957. The accumulated provision for liberalized depreciation income tax differentials at December 31, 1957 was reduced in 1958 by the amount of the 1957 accruals by transfer to accrued taxes payable.
- 3/ Includes credit items, "Telephone franchise requirements" and "Expenses charged construction."
- 4/ Partly estimated.
- 5/ This company uses liberalized depreciation in filing its Federal income tax returns. It makes no provisions in its accounts for the resulting tax differential. This differential for 1958 was a reduction in taxes payable of \$345,000. The cumulative differential for 1954-1958 was a reduction of \$953,304.
- 6/ Amount per \$100 book value of common stock.
- 7/ Represents completed calls only.
- 8/ At end of December.

**DOMESTIC AND INTERNATIONAL
TELEGRAPH CARRIERS**

Table 18.--List of principal domestic and international telegraph carriers reporting to the Commission for the year ended December 31, 1958 whose reports were used in the statistical tabulations

Name of carrier	Headquarters	Type of carrier	Type of report filed ^{1/}
All America Cables & Radio, Inc.	New York, N. Y.	Ocean-cable	Annual, monthly
Commercial Cable Co.	New York, N. Y.	Ocean-cable	Annual, monthly
Globe Wireless Ltd.	San Francisco, Calif.	Radiotelegraph	Annual, monthly

United States-Liberia Radio Corporation.	Akron, Ohio	Radiotelegraph	Annual
Western Union Telegraph Co.	New York, N. Y.	Wire-telegraph and ocean-cable	Annual, monthly

Note.--Principal telegraph carriers are those having average annual operating revenues exceeding \$50,000.

^{1/} Carriers subject to all of the common carrier provisions of the Communications Act of 1934, as amended, and whose operating revenues exceed \$50,000, are required to file annual reports. Telegraph carriers whose annual operating revenues exceed \$250,000 are also required to file monthly reports of revenues and expenses.

Source: Annual reports, correspondence and carriers' records.

Note: Data for earlier years have been restated on the basis of the currently effective systems of accounts (Radiotelegraph effective January 1, 1940, wire-telegraph and ocean-cable effective January 1, 1943).

- () Deficit or other reverse item.
- 1/ The domestic-telegraph and ocean-cable systems of Western Union are counted as one carrier in the total.
 - 2/ Includes bills and accounts payable to affiliates in the nature of long-term advances from affiliates.
 - 3/ Data for the Western Union cable system are not segregable between domestic-telegraph and ocean-cable operations, but are included with domestic-telegraph.
 - 4/ Western Union's capital stock was changed effective April 22, 1952 from class A stock without par value to common stock with a par value of \$10 per share. The capital stock account was reduced \$92,562,682, representing the excess of the stated value of the previously recorded capital stock over the par value of the presently issued common stock, by a transfer to "Other capital surplus."
 - 5/ Compiled from responses to Telegraph Division Order No. 12, annual reports, and correspondence. Represents principally data as estimated by reporting carriers on basis of actual counts for test periods.
 - 6/ The number of messages shown for years prior to 1944 include press messages on an equated basis. For 1944 and subsequent years figures include press messages on an unequated basis.
 - 7/ Includes depreciation and operating taxes.
 - 8/ Recorded provision for Federal income taxes takes entire company operations into consideration including manufacturing or other non-communication activity.
 - 9/ 1929-1934 number of employees at the end of June, 1935-1945 number of employees at the end of December.
 - 10/ Since about the early forties certain employees of Mackay Radio and Telegraph Co., All America Cables & Radio, Inc. and Commercial Cable Co. have served more than one of the companies. The amounts of compensation reported for each of these companies are after intercompany charges and credits. Consequently, although number of employees and the compensation paid are shown separately for ocean-cable and radiotelegraph, they are not considered comparable in the more recent years, and for this reason average compensation per employee is shown on a combined basis only.
 - 11/ Employment figure for 1955 includes an estimated 777 employees assigned to non-communication activities transferred by a carrier to a non-reporting affiliate prior to the reporting date in 1956.

Note:--The data in this table are as reported by the carriers and include some estimates.

- 1/ Includes the cable system of the Western Union Telegraph Co.
- 2/ The data shown under Domestic messages for the international carriers relate to domestic classification messages handled by such carriers between United States on the one hand and Canada and Mexico on the other.
- 3/ Represents that portion of transoceanic and marine messages which was transmitted between gateway points and points within the continental United States, Alaska, Canada and Mexico and the domestic transmission revenues relating thereto. Accordingly, to avoid duplication the number of such messages has been excluded from the grand total.
- 4/ Excludes 376,888 marine messages handled during the year with related revenues of \$292,588. Such amounts are included under public, government, and press messages.
- 5/ Data relate to messages which did not originate in, terminate in, or transit the continental United States.

Note.--Data shown in this table are compiled from responses to the Commission's Order No. 85 and represent all international message telegraph traffic which either originated in, terminated in, or transited the United States. The total reported herein exceeds the amount of transoceanic message traffic reported in Tables 21 and 31 for the reason that the messages and words shown herein include international telegraph traffic handled by Western Union landlines in the United States and exchanged with Canadian or Mexican carriers at the respective border. This traffic is reported in Tables 21 and 31 as "Domestic transmission of transoceanic messages." In addition, the traffic of the French Cable Co. is included in this table but excluded from Tables 21 and 31.

() Indicates revenue loss.

Note.--Principal telegraph, cable, and radiotelegraph carriers included herein are those having annual operating revenues exceeding \$50,000.

() Deficit or reverse item.

1/ Balance sheet data, with the exception of the plant and related reserves, are not segregated between the domestic-telegraph and ocean-cable systems.

2/ As a result of including the segregated balance-sheet figures for ocean-cable plant and related reserves of Western Union's ocean-cable system under International telegraph-ocean-cable without contra amounts, the totals of the asset side of the balance sheet for ocean-cable and ocean-cable and radiotelegraph carriers combined are \$17,082,584 more than the respective totals of the liability side. Conversely, this same amount is included in the liability side, but excluded from the asset side of the balance sheet for Western Union's domestic-telegraph system.

3/ Operating revenues and expenses are overstated to the extent of \$326,127, intersystem rental transactions between the domestic telegraph and ocean-cable systems of Western Union.

4/ All interest on long term debt (\$1,470,906) is shown under Domestic, no allocation between domestic and cables operations having been made.

5/ Reflects estimated net reduction in Federal income tax liability of \$2,132,000 arising from the utilization, for income tax purposes but not for accounting purposes, of a liberalized depreciation method recognized by Section 167 of the Internal Revenue Code of 1954. Also reflects an estimated net increase in Federal income tax liability of \$3,000 arising from the use in prior years of five-year amortization authorized under Section 168 of the Internal Revenue Code of 1954.

6/ The amount of the net income transferred to earned surplus of the ocean-cable system of Western Union has been added to the amount of net income transferred to earned surplus of the domestic telegraph system to determine the balance sheet item of the company's unappropriated earned surplus of \$90,943,778.

7/ Represents revenues from messages which did not originate in, terminate in, or transit the United States.

8/ See item 107 and footnote 10.

9/ Represents revenue from International Metered Communications service.

10/ Includes \$29,953 revenue from international teleprinter exchange service.

11/ To avoid duplication, 1,146 miles leased from Commercial Cable Co. have been omitted.

12/ Estimated on the basis of returns for the month of December 1958.

13/ Includes territories and possessions of the United States except the Canal Zone.

14/ Includes domestic classification messages (primarily Canadian and Mexican) handled by the international carriers.

15/ Includes the domestic transmission of marine messages.

16/ Includes (1) telegraph traffic which originated in, terminated in, or transited the United States and its possessions, and (2) traffic handled between points located outside the United States and its possessions.

17/ Excludes the domestic transmission of marine messages.

18/ Certain employees of Mackay Radio & Telegraph Co., All America Cables & Radio, Inc., and Commercial Cable Co. serve more than one of the companies. The amounts of compensation reported for each of these companies are after intercompany charges and credits. In order to show the proper relationship between the number of employees and the compensation paid it is necessary to combine the figures of the three companies. As of October 31, 1958, 5,602 persons were employed by these companies. The total compensation for the year was \$18,328,244.

PART IV

HOLDING COMPANIES AND

INTERCORPORATE RELATIONS

Table 32.--Inter- corporate relations of communications carriers and controlling companies, December 31, 1958

Note.--Carriers controlled by other companies are indicated by indentation from the margin. For the purpose of this table, control is defined as the ownership of more than 50% of a carrier's common stock. Information shown is principally from annual reports filed with the Commission. In some instances data were obtained from unofficial sources.
