RE: 2017 Annual Guard Band Report of IPC Spectrum, LLC

Dear Ms. Dortch,

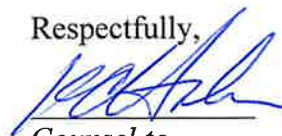

Pursuant to Section 27.607 of the Commission's Rules, IPC Spectrum, LLC (IPC), a licensee of four licenses in the 700 MHz guard band, hereby files this annual report on the status and use of these licenses.

IPC recently acquired these licenses in a transaction recently approved by the Commission and intends to use the spectrum for land mobile radio, mobile data, and fixed data services to support electric utility operations of its parent company, Idaho Power, in the states of Idaho, Oregon, Utah, Wyoming and Utah. The company will not be providing commercial wireless communications services. The spectrum governed by these licenses will be used to serve internal Idaho Power business units. IPC is currently in system design and technology evaluation phases, and anticipates beginning construction in July 2017 and being substantially built by the second quarter of 2019.

IPC currently has no lease agreements in place for the subject licenses.

Please contact the undersigned should you have any questions about this report.

Respectfully,

Counsel to
IPC Spectrum, LLC
