

SUMMARY

Estimated Average Burden Hours Per Response: 88 hours

This document provides the Report Definitions for the FCC ARMIS Report 43-01, the ARMIS Annual Summary Report, and for the Pole and Conduit Rental Calculation Information (“pole attachment data”) Report, which certain carriers must file as a condition of forbearance from the obligation to file the full ARMIS Report 43-01. This document should be used in conjunction with the [Reporting Procedures](#) document to obtain a complete view of the filing procedures and requirements applicable to these two reports.

Generally, this document contains a description of each report which includes: (1) illustrations of all required report tables, showing conventions for table, row and column headings; and (2) general instructions, including row and column definitions, needed to complete the item entries in each table. These are found on the following pages of this document:

Rounding Conventions: All monetary figures must be rounded to the nearest thousand dollars. All rates of return and percentage amounts must be entered in percent and must be rounded to 2 decimal places. All minutes of use figures reported in Table II must be rounded to the nearest thousand; all access line figures must be provided to the nearest whole number. In ARMIS Report 43-01, Table III and in the pole attachment data report, operational data must be reported in actual units and the equivalent number of poles should be provided to the nearest whole number.

Data Entry Conventions: Items that the Commission has determined need not be reported because they do not apply are designated by N/A in the table illustrations. DO NOT override N/As. All other fields must be populated. If there are no data applicable to an open field, enter zero.

See the [Reporting Procedures](#) document for additional instructions (e.g., concerning the use of submission numbers, footnotes, and errata) that are common to filing all ARMIS reports and pole attachment data.

NOTICE: The ARMIS Annual Summary Report collects highly aggregated financial data reflecting the results of accounting, rate base, and cost allocation requirements prescribed in Parts 32, 64, 65, 36 and 69. This report also includes a demand analysis table containing interstate access demand data. The ARMIS Annual Summary Report facilitates the timely and efficient analysis of revenue requirements, rates of return and price caps, jurisdictional separations, and universal service fund, and provides an improved basis for auditing and other oversight functions. It also enhances the Commission's ability to quantify the effects of policy proposals. The Commission has granted all carriers conditional forbearance from ARMIS 43-01. To obtain this forbearance, carriers must have a data retention compliance plan approved by the Commission and continue to file certain ARMIS 43-01 data related to pole attachments. In addition, mid-sized incumbent local exchange carriers, as defined by Part 32.9000, shall certify compliance with Part 64.901 of the Commission's rules (see Part 64.905) by filing a certification letter annually. This certification letter must be signed, under oath, by an officer of the company. Your response is mandatory.

The public reporting for this collection of information is estimated to average 88 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0512), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to nicole.ongele@fcc.gov. **PLEASE DO NOT SEND YOUR RESPONSE TO THIS ADDRESS.**

Remember - You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0512.
