

**Appendix B: Updated Incumbent Aggregated Holdings**

**I. AGGREGATED HOLDINGS FILE DATA DESCRIPTION**

**A. Introduction**

The file, `updated_aggregated_holdings.csv`, describes the updated consolidated and aggregated holdings of 39 GHz licensees. This data has been created using the existing license holdings as found in the Universal Licensing System (ULS) and aggregated according to the methodology described in the *Updated 39 GHz Reconfiguration Procedures Public Notice*.<sup>1</sup> This data will be used for determining the reconfiguration proposed by the FCC, as well as other options available during the Initial Commitment process described in the Public Notice.

**B. Field Descriptions**

Field	Description	Type	Example
<code>consolidated_incumbent</code>	Consolidated Incumbent name. This is also the licensee name where there is a single named 39 GHz licensee. If multiple 39 GHz licensees are commonly controlled, all licenses held within the PEA by such licensees are consolidated under a one name. A table mapping all 39 GHz licensee FRN's to the consolidated_incumbent name is listed below.	String	AT&T Inc., "PVT Networks, Inc."
<code>market_number</code>	The PEA number for the aggregated holdings	String	PEA001, PEA126
<code>market_name</code>	The locality name for the PEA	String	"New York, NY", "Baltimore, MD- Washington, DC"
<code>market_mhz_pops</code>	The total number of MHz-Pops for one 100 MHz block in this PEA	Integer	302219200, 272241100
<code>agg_mhz_pops</code>	The aggregated holdings in MHz-Pops in this PEA for all licenses under the consolidated incumbent	Integer	8211210, 42247120
<code>change_from_initial</code>	Difference of MHz-pops from <code>agg_mhz_pops</code> released in <code>initial_aggregated_holdings.csv</code> <sup>2</sup>  Note: Licenses owned by Sauro, Ronna L. have been consolidated under Video Multipoint Inc. Since Video Multipoint Inc's licenses are now aggregated from multiple licensees, the change will be denoted "-".	Integer, "-"	-3000, 4200, -

<sup>1</sup> See, generally, *Notice of Updated 39 GHz Reconfiguration Procedures, et al.*, GN Docket No. 14-177, AU Docket No. 19-59, Public Notice, DA 19-397, (WTB/OEA May 14, 2019) (*Updated 39 GHz Reconfiguration Procedures Public Notice*).

<sup>2</sup> For details on changes, see *Updated 39GHz Reconfiguration Procedures Public Notice*, para 9.

**Federal Communications Commission**

<b>Field</b>	<b>Description</b>	<b>Type</b>	<b>Example</b>
num_blocks	The calculated number of 100 MHz block equivalents of the aggregated holdings	Numeric {5}	3, 4.0122
round_up	Indicates whether the consolidated incumbent's partial holdings in a PEA are at least 99% of the total MHz-Pops of the PEA and therefore eligible to be rounded up to a whole license	String {Yes No}	Yes, No
final_num_blocks	Total number of blocks after rounding up partial blocks	Numeric {5}	3, 4.0122

**C. Consolidated Incumbents**

The 39 GHz reconfiguration procedures require that commonly controlled 39 GHz band licensees be considered one entity for purpose of quantifying their 39 GHz band holdings. Each licensee FRN will be listed under a single consolidated incumbent name. The table below maps each current 39 GHz licensee FRN and name from ULS with the consolidated\_incumbent name that will be listed in the updated\_aggregated\_holdings.csv file. If an incumbent does not submit FCC Form 175-A and submit an Initial Commitment, it will receive modified licenses based on the Commission's proposed reconfiguration and, for any consolidated incumbent, its modified licenses will be issued to the consolidated\_incumbent name and associated FRN listed in the table below.

<b>incumbent_licensee_FRN</b>	<b>incumbent_licensee_name</b>	<b>consolidated_incumbent</b>	<b>consolidated_incumbent_FRN</b>
0001572676	Alascom, Inc.	AT&T Inc.	0005193701

0001596535	Video Multipoint Inc	Video Multipoint Inc	0001596535

<sup>3</sup> In the Initial Aggregated Holdings Data, FiberTower's licenses were divided between two separate FRNs: 0019211895 and 0023187016. FiberTower's license information has been updated and all 39 GHz licenses are now listed under FRN 0019211895.
