

FCC Rural Tour: Nebraska and Kansas

Consumer Education Forum

The Federal Communications Commission and AARP Nebraska invite you to a consumer education forum on unwanted calls. Learn what the government is doing to crack down on illegal robocalls and how you can better protect yourself.

Representatives from the FCC, AARP, the Nebraska Attorney General's Office and the Nebraska Public Service Commission will share tips to help identify suspicious phone calls and what to do about them.

FCC Representatives will answer your questions and help address other telecommunication issues you may have. This includes questions such as:

- Are you getting too many illegal unwanted robocalls at all hours of the day and night?
- Are you receiving scam calls?
- Is your phone bill confusing and seemingly written in some other language?
- How can you be sure not to lose your favorite television stations after the upcoming broadcast transition?
- How do you make your voice heard regarding telecommunications and broadcasting issues?
