Re: Annual Collection and Use of 911 and E911 Fees by States and Other Jurisdictions

Dear Chief Jordan,

Attached you will find the response to the FCC Survey from the State of Ohio. Although the State of Ohio has a statewide Emergency Services Internet-Protocol Network Steering Committee and a 9-1-1 Program Office, 9-1-1 in Ohio is directly managed at the local level. To complete the attached survey, the Ohio 9-1-1 Program Office surveyed each of Ohio's eighty-eight (88) counties for detailed responses to the questionnaire. All eighty-eight (88) counties responded in the time frame allocated. The data collected was analyzed and calculated to provide the best overall representation for the status of the State of Ohio.

Ohio does have a mechanism to ensure all counties spend 9-1-1 funds received from the state in the allowable categories spelled out in the Ohio Revised Code. These files are readily available at the Ohio 9-1-1 Program Office, and we were able to determine that no fees were diverted in 2021. Ohio is moving forward in implementing Next Generation 9-1-1 (NG 9-1-1) and we anticipate more activity taking place in 2022.

Should you have any questions regarding Ohio's submission, please do not hesitate to contact me at (614) 728-2114 or e-mail at [Rob.Jackson@das.ohio.gov](mailto:Rob.Jackson@das.ohio.gov).

Rob Jackson  
Ohio 9-1-1 Administrator  
Office: 614-728-2114
