Applicants have an option to indicate a project is “Excluded from SHPO Review.”

When applicable, check the “Structure excluded from SHPO review” box.

This structure is being proposed by

 **Positive Train Control Filing Subject to Expedited Treatment Under Program Comment:**

 **Positive Train Control Filing (Excluded Poles Only):**

 **Structure excluded from SHPO review (An alternate submission packet will be provided **):**
** Note: At minimum, this alternate submission must include contact information for the applicant, a map of the proposed location of the facility, coordinates of the proposed facility, a description of the facility to be constructed including all proposed elements (such as, for example, access roads), and a description of the proposed site, including both aerial and site photographs.

Tower Construction Notification New Notification

[▶ Notifications Home](#)

Your Notification has been successfully submitted to the FCC. The date for this Notification is 03/12/2018. Your Notification ID number is **26671**. Please make a note of this Notification ID — print out this page for your records. A confirmation of this submitted notification will also be emailed to the email address specified in your notification.

This system is intended to facilitate consultation under Section 106 of the National Historic Preservation Act by providing early notification of proposed construction to Tribes and State Historic Preservation officers. This system is not to be used in place of Section 106 consultation, and use of this notification system in itself does not satisfy parties' obligations with respect to historic preservation review under the Commission's rules.

Please note: the submission of this notification is NOT to be considered a submission for Antenna Structure Registration.
Tower Structures that require antenna structure registration based on FCC Rules 47 C.F.R. Part 17 must complete FCC Form 854 after FAA clearance is obtained.

When the notification has been submitted the TCNS number is displayed here on the confirmation page.

 PO Box # _____
 Street Address City, State, ZIP _____

Dear (Contact Title, First Name MI Last Name Suffix):

The Federal Communications Commission extends its greetings to you. Thank you for using our Tower Construction Notification System (TCNS). This letter is a notice that a telecommunications project is proposed within a geographic area(s) for which you have chosen to receive such notifications.

In order to promote the efficiency of the FCC's process for protecting historic properties, including Tribal traditional cultural properties, we respectfully request that you respond within no more than 30 days from receipt of a complete Submission Packet as to your interest or lack of interest in each of the proposed constructions listed below. You may respond either through the TCNS as described at the end of this Notice, directly to the entity submitting the notification, or by contacting one of the FCC employees listed below. Your prompt response will avoid the need for repetitive follow-up contacts that unnecessarily consume the resources of all parties involved in the process.

The following list indicates the geographic area(s) of interest which you have indicated to receive notifications of proposed communications facilities constructions:

[System inputs a list of Tribe's geographic areas of interest from TCNS]

The Tower Construction Notification Submissions received during the last week, which match your areas of interest, are listed and detailed below.

[System inputs the notification data as listed below in table formats under each section]

Date:

Entity Name (Tower Company Name)

Reference Number:

PO Box #

Street Address

City, State, ZIP

Dear Applicant:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this electronic mail message is to inform you that the following authorized persons were sent the notification that you provided through TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail (letter). We note that the review period for all parties begins upon receipt of the Submission Packet pursuant to Section VII.A of the NPA and notifications that do not provide this serve as information only.

Persons who have received the notification that you provided include leaders or their designees of federally-recognized American Indian Tribes, including Alaska Native Villages (collectively "Tribal Nations"), Native Hawaiian Organizations (NHOs), and State Historic Preservation Officers (SHPOs). For your convenience in identifying the referenced Tribal Nations and NHOs and in making further contacts, the City and State of the Seat of Government for each Tribal Nation and NHO, as well as the designated contact person, is included in the listing below. We note that Tribal Nations may have Section 106 cultural interests in ancestral homelands or other locations that are far removed from their current Seat of Government. Pursuant to the Commission's rules as set forth in the Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission (NPA), all Tribal Nations and NHOs listed below must be afforded a reasonable opportunity to respond to this notification, consistent with the procedures set forth below, unless the proposed construction falls within an exclusion designated by the Tribal Nation or NHO. (NPA, Section IV.F.4).

The notification that you provided was forwarded to the following Tribal Nations and NHOs. A Tribal Nation or NHO may not respond until a full Submission Packet is provided. If, upon receipt, the Tribal Nation or NHO does not respond within a reasonable time, you should make a reasonable effort at follow-up contact, unless the Tribal Nation or NHO has agreed to different procedures (NPA, Section IV.F.5). In the event a Tribal Nation or NHO does not respond to a follow-up inquiry, or if a substantive or procedural disagreement arises between you

and a Tribal Nation or NHO, you must seek guidance from the Commission (NPA, Section IV.G). These procedures are further set forth in the FCC's Second Report and Order released on March 30, 2018 (FCC 18-30).

1. Title – Contact First & Last Name – Entity Name – Contact City, State - regular mail, email or both

Exclusions:

2. Title – Contact First & Last Name – Entity Name – Contact City, State - regular mail, email or both

Exclusions:

3. Title – Contact First & Last Name – Entity Name – Contact City, State - regular mail, email or both

Exclusions:

The notification that you provided was also forwarded to the following SHPOs in the State in which you propose to construct and neighboring States. The information was provided to these SHPOs as a courtesy for their information and planning. You need make no effort at this time to follow up with any SHPO that does not respond to this notification. Prior to construction, you must provide the SHPO of the State in which you propose to construct (or the Tribal Historic Preservation Officer, if the project will be located on certain Tribal lands), with a Submission Packet pursuant to Section VII.A of the NPA unless the project is excluded from SHPO review under Section III D or E of the NPA.

4. Title – Contact First & Last Name – Entity Name – Contact City, State - regular mail, email or both

TCNS automatically forwards all notifications to all Tribal Nations and SHPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal for PTC wayside poles falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribal Nation or SHPO. In addition, a particular Tribal Nation or SHPO may also set forth policies or procedures within its details box that exclude from review certain facilities (for example, a statement that it does not review collocations with no ground disturbance; or that indicates that no response within 30 days indicates no interest in participating in pre-construction review).

Please be advised that the FCC cannot guarantee that the contact(s) listed above have opened and reviewed an electronic or regular mail notification. If you learn that any of the above contact information is no longer valid, please contact the FCC by emailing tenshelp@fcc.gov. The following information relating to the proposed tower was forwarded to the person(s) listed above:

Street Address 2

City, State, Zip Code

Dear Applicant:

This letter addresses the proposed communications facilities listed below that you have referred to the Federal Communications Commission (Commission) for purposes of contacting federally recognized Indian Tribes, including Alaska Native Villages (collectively Indian Tribes), and Native Hawaiian Organizations (NHOs), as specified by Section IV.G of the Nationwide Programmatic Agreement (NPA). Consistent with the procedures outlined in the Commission's *Wireless Infrastructure Second Report and Order*,^[1] we have contacted the Indian Tribes or NHOs identified in the attached Table for the projects listed in the attached Table. You referred these projects to us between 05/10/2018 and 05/17/2018. Our contact with these Tribal Nations or NHOs was sent on 05/17/2018.

Thus, as described in the *Wireless Infrastructure Second Report and Order*,^[2] if you or Commission staff do not receive a statement of interest regarding a particular project from any Tribe or NHO within 15 calendar days of 05/17/2018, your obligations under Section IV of the NPA with respect to these Tribal Nations or NHOs are complete. If a Tribal Nation or NHO responds that it has concerns about a historic property of traditional religious and cultural significance that may be affected by the proposed construction within the 15 calendar day period, the Applicant must involve it in the review as set forth in the NPA, and may not begin construction until the process set forth in the NPA is completed.

You are reminded that Section IX of the NPA imposes independent obligations on an Applicant when a previously unidentified site that may be a historic property,

^[1] See *Accelerating Wireless Broadband Deployment by Removing Barriers to Infrastructure Deployment*, Second Report and Order, FCC 18-30 (Mar. 30, 2018) (*Wireless Infrastructure Second Report and Order*).

^[2] See *id.* at paras. 111-112.

including an archeological property, is discovered during construction or after the completion of review. In such instances, the Applicant must cease construction and promptly notify, among others, any potentially affected Tribal Nation or NHO. A Tribal Nation's or NHO's failure to express interest in participating in pre-construction review of an undertaking does not necessarily mean it is not interested in archeological properties or human remains that may inadvertently be discovered during construction. Hence, an Applicant is still required to notify any potentially affected Tribal Nation or NHO of any such finds pursuant to Section IX or other applicable law.

Sincerely,

Jill Springer
Federal Preservation Officer
Federal Communications Commission
jill.springer@fcc.gov

Street Address₂

City, State, Zip Code

Dear (Contact Title, First Name MI Last Name Suffix):

By this communication, we respectfully submit the Federal Communications Commission's (Commission) final request for you, as the designated representative of the [Tribe Name] for purposes of the Tower Construction Notification System (TCNS), to let us know whether your Tribal Nation or Native Hawaiian Organization (NHO) has an interest in participating in pre-construction Section 106 review of the proposed communications facilities listed in the table below. In particular, we request that you inform us and each party listed below (Applicant) within 15 calendar days from the date of this communication whether historic properties of religious and cultural significance to your Tribal Nation or NHO may be affected by construction of the proposed communications facilities. In addition, we respectfully inform you that we are also notifying each Applicant that proposes to construct these facilities that, if neither we nor the Applicant hears from you within 15 calendar days, then both we and the Applicant will consider that our respective pre-construction notification and consultation obligations with respect to your Tribal Nation or NHO are now complete with regard to these listed facilities. In order to ensure that your response is timely received, we ask that you respond using one of the methods specified on page 3 of this letter.

According to information provided to us by the Applicants, each Applicant listed below (or the Commission through TCNS) has contacted you regarding construction of the proposed communications facilities. If you have not received such communications, please let us know. Nonetheless, our records do not indicate that you or your Tribal Nation or NHO has provided us with a statement either of "interest" or of "no interest" regarding the proposed undertaking(s), and we are informed that the Applicant has received no such response. Our records further indicate that neither you nor your Tribal Nation has expressed a desire to engage in government-to-government consultation regarding the undertaking(s). (In the event that you have already responded either to an Applicant or to the Commission, you do not need to respond again, and we apologize for the misunderstanding.)

If you have not responded because you have had difficulty using TCNS for any reason, please contact the Tower Construction Notification System Help Team at TCNShelp@fcc.gov or (202) 418-0220 for assistance. We appreciate any suggestions you may have to improve TCNS so that it may better serve your needs.

Background

In order to fulfill our obligations under the NHPA, the Commission has instituted rules and procedures to ensure that we consult with any federally recognized Indian Tribes, including Alaska Native Villages (collectively Tribal Nations), and Native Hawaiian Organizations (NHOs), that may attach religious and cultural significance to a historic property that may be affected by an undertaking. These procedures, as memorialized in the Nationwide Programmatic Agreement (NPA), initially require Applicants to identify and ensure that early contact is made with Tribal Nations and NHOs that may attach religious and cultural significance to affected historic properties (Sections IV.B and IV.C). As you know, your Tribal Nation or NHO has voluntarily entered information into TCNS regarding the geographic areas where such properties may exist.

The NPA requires Applicants to make initial contact with Tribal Nations or NHOs that may attach religious and cultural significance to a historic property that may be affected by an undertaking through TCNS or otherwise, in accordance with each Tribal Nation's or NHO's wishes (Section IV.C). The NPA further requires Applicants to afford these Tribal Nations a reasonable period of time to respond, ordinarily 30 days (Section IV.F.4) from receipt of a full Submission Packet, and it advises Applicants to follow up in case a Tribal Nation or NHO does not respond to a single attempt at communication (Section IV.F.5). As explained in Section IV.G of the NPA, the purposes of this initial communication are: (1) to ascertain whether historic properties of religious and cultural significance to the Tribal Nation or NHO may be affected by the undertaking and consultation is therefore necessary; and (2) where possible, with the concurrence of the Tribal Nation, to reach an agreement on the presence or absence of effects that may obviate the need for consultation.

In the event a Tribal Nation requests government-to-government consultation, the Applicant must refer the matter to the Commission (Section IV.G). The Commission then carries out government-to-government consultation. If a Tribal Nation or NHO does not respond to an Applicant's inquires, the Applicant must seek guidance from the Commission (Section IV.G). Under our procedures, in the event that a Tribal Nation or NHO does not respond to an Applicant's inquiries, the Commission staff will contact the Tribal Nation's or NHO's designated cultural resources representative by letter and/or e-mail to respectfully request that the Tribal Nation or NHO inform the Commission and the Applicant within 15 calendar days as to its interest or lack of interest in participating in the Section 106 review. Staff will inform the Applicant when this letter or e-mail is sent, either by copying it on the correspondence or by other effective means. If the Tribal Nation or NHO does not respond within 15 calendar days of the date of this letter or e-mail, the Commission will conclude that the Tribal Nation's or NHO's non-response to communications from the Applicant, TCNS, and the Commission staff means the Tribal Nation or NHO does not wish to participate in the Section 106 review for that particular project. If the Tribal Nation or NHO responds that it is interested in participating within the 15 calendar day period, the Applicant must involve it in the review as set forth in the NPA.

Contacts Regarding the Sites Listed In this Communication

As already noted above, according to our records, your Tribal Nation or NHO has not indicated whether it is interested in participating in review for the sites listed below nor expressed a desire to engage in government-to-government consultation. Specifically, our records indicate that you have been initially notified either through TCNS or directly by the Applicant of each of the projects listed below. These earlier efforts and this letter together comprise reasonable and good faith efforts to contact you and obtain your participation, in accordance with our procedures. Accordingly, we determine that if your response is not received within 15 calendar days of the date of this communication, as specified above, we will have discharged our pre-construction notification and consultation obligations to you under the NHPA, and the Applicant will have fulfilled its related duties under the NPA and the Commission's Rules. If you did not receive the initial contact as indicated by the Applicant, please let us know and we will look into the situation.

Set Preference Details

In order to assist you in review, you may add language specifying your preferences and procedures. This language will be sent automatically to all applicants whose notifications are referred to you. Many Tribes and NHOs have chosen language specifying that if they do not respond to a TCNS notification within 30 days, they have no interest in participating in pre-construction review for the site. You may choose to use this standard language, or you may enter a description of your own procedures and preferences. [Examples of possible types of language.](#)

Select 30-Day Preferences

Add the following language to be sent to applicants. [More Information.](#)
If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Do not add 30-Day language.

Additional Details

You may also provide additional details relating to your review of tower notifications. For example, if you do not need to review towers going up along highway rights-of-way built after a certain date, you may specify this information in the text field below. You may also specify, for example, additional information that you wish to receive from applicants.

Any changes made to the Additional Details will not be effective until approved by the FCC.

MM/DD/YYYY

Dear *Tribe Title, First Name, Middle Initial, Last Name and Suffix*:

Thank you for using the Federal Communication Commission's (FCC) Tower Construction Notification System (TCNS) to update your Additional Details information. This notification is to inform you that the Additional Details text that you submitted on *MM/DD/YYYY* has been approved and published.

If you believe that this information was changed in error or have any questions or concerns, please contact the FCC by using the electronic help request form located on the FCC's website at: <https://www.fcc.gov/wireless/available-support-services>

For additional information or assistance, you may also call the FCC Support Center at (877) 480-3201 (TTY 717-338-2824). To provide quality service and ensure security, all telephone calls are recorded.

Sincerely,
Federal Communications Commission

Once approved by the FCC, the Additional Details text will be included in the “NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION” emails to the Applicants.

Set Preference Details

In order to assist you in review, you may add language specifying your preferences and procedures. This language will be sent automatically to all applicants whose notifications are referred to you. Many Tribes and NHOs have chosen language specifying that if they do not respond to a TCNS notification within 30 days, they have no interest in participating in pre-construction review for the site. You may choose to use this standard language, or you may enter a description of your own procedures and preferences. [Examples of possible types of language.](#)

Select 30-Day Preferences

Add the following language to be sent to applicants. [More Information.](#)
If the applicant/tower builder receives no response from the Mashantucket Pequot Tribe within 30 days after notification through TCNS, the Mashantucket Pequot Tribe has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Mashantucket Pequot Tribe in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

Do not add 30-Day language.

Additional Details

You may also provide additional details relating to your review of tower notifications. For example, if you do not need to review towers going up along highway rights-of-way built after a certain date, you may specify this information in the text field below. You may also specify, for example, additional information that you wish to receive from applicants.

Any changes made to the Additional Details will not be effective until approved by the FCC.

Status: FCC Approved

Please contact us in the event of any finds that may be of cultural or religious importance.

Note: Text may not exceed 10,000 characters.

Overview of TCNS Manual Referral Process

- If an applicant does not receive a timely response to its TCNS submission from a Tribal Nation or Native Hawaiian Organization, the applicant may refer the matter to the FCC for follow-up. In most cases, the applicant can rely on an automated referral via the TCNS system itself, but in some instances automated referral is unavailable and a manual referral must be submitted.
- The manual referral process is an online web form used to submit the data needed for FCC review. It is located here: <http://coan.fcc.gov:7128/InfoViewApp/logon.jsp>
- The manual referral process relies on human processing by both applicants and Commission staff, so accuracy and organization is critical.

Prior to Referring, Applicants Must Ensure:

- That the E106 filing commenced and the information was delivered by preferred means;
- That the 30/35-day period is up – referrals become available on the 31st/36th day;
- That the Tribe did not provide a valid response to the project in TCNS;
- That the Tribe has not indicated “No Response Equals No Interest”;

Note:

- Do not refer a Tribe that has provided a specific and substantial response. A request for fees, however, is not considered a response in this context. See further guidance in the Q & A document.
- When a Tribe responds with such a reply within TCNS, automatic referral through the system is not possible.

TCNS Manual Referral Submission

OMB #3060-1039

Attachment Required with Submission! Do Not Click "Submit" Without Attachments.

Attachments are **REQUIRED** with the submission of the manual referral (e.g., copies of emails sent to Tribes, proof of mailing or physical delivery to Tribes). Missing attachments will lead to the cancellation of your referral or a delay in the manual referral processing. Each attachment **CANNOT** exceed 10 megabytes.

* Referrer Name

* Referrer Email

* TCNS Number

* SHPO Review

E106 File Number

* Project Location

Name of Tribes

▼ More information

Begin typing, then click on the magnifying glass to search and select.

* List of Tribe Names

▼ More information

Add Tribes with the above box "Name of Tribes". Remove Tribes by deleting them from the "List of Tribe Names" box. Notification will automatically be sent to the email address of the Tribe's primary contact in TCNS.

Additional Tribe Email Address(es)

▼ More information

Enter additional email address as email1@email.com, email2@email.com (separated by a comma). Please add contact information for the Tribe's TCNS project reviewer if known to be different.

Manual Referral Documentation

* Method of Delivery requested by Tribe(s)

* Date Documentation Sent

Additional Comments

See below to include attachments before submitting the form.
