Subject: LPFM Filing Window Rescheduled for December 6-13, 2023

Greetings from the Federal Communications Commission.

Update: Revised Filing Dates for LPFM Window

The Commission is delaying the filing window, originally open November 1—November 8, 2023, for applications for low power FM (LPFM) new station construction permits. **The window will now open at 12:01 am EST on December 6, 2023, and close at 6:00 pm EST on December 13, 2023. The filing deadline will be strictly enforced.**

The Commission determined that it would serve the public interest to delay the LPFM filing window to afford interested parties sufficient time to prepare applications for new permits. Further information about the revised filing dates for the LPFM window may be found in the Public Notice announcing it [HERE](#).

For Your Information: October 12 LPFM Tribal Webinar Recording Available

A recording of the Tribal webinar and associated slides on the LPFM radio stations filing window will be available [HERE](#). The October 12th webinar provided an overview of the LPFM application filing requirements and selection process, and explained the application process.

For additional information on the filing window, contact James Bradshaw James.Bradshaw@fcc.gov or Lisa Scanlan Lisa.Scanlan@fcc.gov of the FCC's Media Bureau, Audio Division.
