CLOSED BROADCAST AUCTION

Status of Applications to Participate in the Auction

Report No. AUC-99-25-F (Auction No. 25)

The Federal Communications Commission ("FCC") has received **338** FCC Form 175 applications to participate in Auction No. 25, which is scheduled to begin on Tuesday, September 28, 1999. Auction No. 25 will make available spectrum associated with 119 MX groups. The applications for participation in the auction have been reviewed for completeness and compliance with the Commission's Rules, and have been grouped into the following categories:

ACCEPTED FOR FILING	202 Applications
INCOMPLETE.....	99 Applications
REJECTED.....	37 Applications

Accepted: Applications classified as accepted for filing are listed in Attachment A. **These applicants will become qualified bidders upon receipt of the required upfront payment by 6:00 p.m. ET on Monday, September 13, 1999, as discussed below.** With respect to their applications, these applicants need take no further action except as may be necessary to keep their applications up-to-date.¹ Applicants are also advised that Attachment A includes FCC account numbers for each applicant. FCC account numbers are applicable for bidding only.

¹ See 47 C.F.R. § 1.65.

Incomplete: Applications classified as incomplete are listed alphabetically in Attachment B. Applicants whose applications have been classified as incomplete will receive overnight correspondence indicating what information is required to make the applications acceptable for filing. **These applicants will become qualified bidders only if they: (1) make the required upfront payments by 6:00 p.m. ET on Monday, September 13, 1999, as discussed below; and (2) resubmit their applications by 5:30 p.m. ET on Tuesday, September 14, 1999 and provide the requested information or correct the deficiencies as indicated in the correspondence being sent to them.** They must also keep their applications up-to-date as required.² Applicants are also advised that Attachment B includes FCC account numbers for each applicant. FCC account numbers are applicable for bidding only.

Rejected: Applications classified as rejected are listed alphabetically in Attachment C. Applicants whose applications have been classified as rejected are disqualified from participation in Auction 25. **In Auction 25, rejected short-form (Form 175) applications include those filed for MX Groups in which mutual exclusivity no longer exists.** In such cases, the underlying long-form applications associated with these Forms 175 will be the subject of an applicant qualifications review or other appropriate Commission action by the Mass Media Bureau at a later date.

In addition to Attachments A, B, and C, this Public Notice includes the following attachments:

Attachment D:	MX Groups Removed from the Auction
Attachment E:	FCC Remote Bidding System Hardware and Software Requirements
Attachment F:	How to Monitor FCC Auctions On-Line
Attachment G:	Accessing the FCC Network

RESUBMISSION FILING DEADLINE

The filing window for resubmitting FCC Form 175 applications is now open. The FCC Form 175 applications must be corrected via the electronic filing system by no later than **5:30 p.m. ET on September 14, 1999.** This will be the only opportunity to cure FCC Form 175 defects; late resubmissions will not be accepted. In addition, if an application remains incomplete or otherwise deficient after the resubmission deadline has passed, it will be rejected.

UPFRONT PAYMENT DEADLINE

Upfront payments and accompanying FCC Remittance Advice (FCC Form 159) for this auction are due at Mellon Bank, Pittsburgh, Pennsylvania, **by 6:00 p.m. ET on Monday, September 13, 1999.** Payments may be submitted prior to this date. Payments must be made by wire transfer and applicants must include their Taxpayer Identification Numbers (TIN). No other payment method is acceptable for this auction.³ **Applicants are reminded to use their TIN numbers, not their FCC Account Numbers, on the FCC Remittance Advice (FCC Form 159).**

² *Id.*

³ *See Public Notice*, DA 99-1346, released July 9, 1999, for detailed remittance and upfront payment instructions.

Applicants that have filed applications classified by this Public Notice as incomplete must submit timely and sufficient upfront payments before the Commission will review their resubmitted applications. The upfront payments of applicants whose applications have been rejected after resubmission will be refunded automatically if the applicant has provided its TIN and wire transfer instructions. Detailed information regarding upfront payments can be found in the Public Notice announcing notice and filing requirements for Auction No. 25, DA 99-1346, released July 9, 1999, as supplemented by Erratum, released August 2, 1999.

OTHER IMPORTANT INFORMATION

Clarification Regarding Bidding Arrangements: Some applicants have requested clarification on whether parties to joint bidding agreements or other arrangements should separately submit upfront payments. Section 1.2105(a) of the Commission's Rules states that "in order to be eligible to bid, an applicant must timely submit a short-form application, together with any appropriate upfront payment..."⁴ Thus, applicants that are parties to these arrangements **and** that wish to have the flexibility to bid in the auction individually must tender their own upfront payments.

Qualified Bidders: A Public Notice listing all applicants qualified to bid in the auction will be released after upfront payments have been received, resubmitted FCC Form 175 applications have been processed and reviewed, and payments and applications have been correlated. The Public Notice will also include, among other things, the bidding schedule for the first two days of the auction.

Prohibition of Collusion: To ensure the competitiveness of the auction process, Section 1.2105(c) of the Commission's Rules prohibits applicants for the same MX Group from communicating with each other during the auction about bids, bidding strategies, or settlements. For Auction No. 25, this prohibition became effective at the filing deadline of short-form applications on Friday, August 20, 1999, and will end on the post-auction down payment due date to be announced in a future Public Notice. To comply with this rule, bidders competing for the same construction permit(s) are encouraged not to use the same individual authorized bidder. A violation of the anti-collusion rule could occur if an individual acts as the authorized bidder for two or more competing applicants, and conveys information concerning the substance of bids or bidding strategies between the bidders he/she is authorized to represent in the auction. Also, if the authorized bidders are different individuals employed by the same organization (e.g., law firm or consulting firm), a violation could similarly occur. At a minimum, in such a case, applicants should certify that precautionary steps have been taken to prevent communication between authorized bidders and that applicants and their bidding agents will comply with the anti-collusion rule.⁵ The Bureau cautions that merely filing a certifying statement as part of an application will not outweigh specific evidence that collusive behavior has occurred, nor will it preclude the initiation of an

⁴ 47 C.F.R. Section 1.2105(a).

⁵ See, e.g., "Wireless Telecommunications Bureau Responds to Questions About the Local Multipoint Distribution Service Auction," *Public Notice*, 13 FCC Rcd 341 (WTB 1998); In re Application of Nevada Wireless for a License to Provide 800 MHz Specialized Mobile Radio Service in the Farmington, NM-CO Economic Area (EA-155) Frequency Band A, *Memorandum Opinion and Order*, 13 FCC Rcd 11973, 11977, ¶ 11 (WTB 1998) ("*Nevada Wireless*"). These and other documents addressing the Commission's anti-collusion rule are available on the FCC Web Site at: <http://www.fcc.gov/wtb/auctions>.

investigation when warranted.⁶ In Auction No. 25, for example, the rule would apply to any applicants bidding for the same MX group. By electronically submitting their FCC Form 175 short form applications, applicants are certifying their compliance with Section 1.2105(c). In addition, Section 1.65 of the Commission's Rules requires an applicant to *maintain* the accuracy and completeness of information furnished in its pending application and to notify the Commission as soon as possible, but in any event, within 30 days, of any substantial change that may be of decisional significance to that application.⁷ Thus, Section 1.65 requires an auction applicant to notify the Commission of any violation of the anti-collusion rules upon learning of such violation. Bidders are therefore required to make such notification to the Commission immediately upon discovery.

In addition, applicants are reminded that they are subject to the antitrust laws, which are designed to prevent anti-competitive behavior in the marketplace. Applicants are further reminded that winning bidders will, upon conclusion of the auction, be required to disclose the specific terms, conditions and parties involved in all bidding consortia, joint ventures, partnerships, and other arrangements entered into relating to the competitive bidding process.⁸ Bidders found to have violated the anti-collusion rule may be subject to sanctions.⁹

Ex Parte Rule: Applicants should also be aware that the Commission has generally exempted auction proceedings from the strict requirements of the *ex parte* rule (47 C.F.R. § 1.1208).¹⁰

Mock Auction: All applicants found to be qualified bidders are eligible to participate in a mock electronic auction on **Friday, September 24, 1999**. The Bureau will issue a Public Notice announcing when software for the mock auction will be posted on the World Wide Web and BBS.

Bidder Alerts: All applicants must certify on their FCC Form 175 applications under penalty of perjury that they are legally, technically, financially and otherwise qualified to hold a license, and not in default on any payment for Commission licenses (including down payments) or delinquent on any non-tax debt owed to any Federal agency. Prospective bidders are reminded that submission of a false certification to the Commission is a serious matter that may result in severe penalties, including monetary forfeitures, license revocations, exclusion from participation in future auctions, and/or criminal prosecution.

⁶ See *Nevada Wireless*, 13 FCC Rcd at 11978, ¶ 13.

⁷ See 47 C.F.R. § 1.65.

⁸ Section 73.5005(a) of the Commission's rules requires that post-auction filings include the exhibits required by 47 C.F.R. Section 1.2107(d) (concerning any bidding consortia, joint bidding arrangements or other agreements relating to the competitive bidding process); Section 1.2110(i) (concerning designated entity status, if applicable); and Section 1.2112(a) & (b) (concerning disclosure of ownership and real party in interest information.)

⁹ See 47 C.F.R. §§ 1.2105(c), 1.2107(d), and 1.2109(d).

¹⁰ See 47 C.F.R. § 1.1202(d) note (1); see also "Commission Announces that Mutually Exclusive 'Short-Form' Applications (Form 175) to Participate in Competitive Bidding Process ('Auctions') Are Treated as Exempt for Ex Parte Purposes." *Public Notice*, 9 FCC Rcd 6760 (1994).

MX GROUPS REMOVED FROM AUCTION 25

The following MX groups have been removed from the auction for procedural reasons, such as, for example, the filing of settlement agreements.

AM2 Pine Island Center, FL	PST8 Idaho Falls, Idaho
AM6 Sparks, NV	PST9 International Falls, Minnesota
FM3 Bentonville, AR	PST11 Ishpeming, Michigan
FM7 Nashville, AR	PST12 Ithaca, New York
FM10 Parker, AZ	PST13 Kailua, Hawaii
FM11 Baker, CA	PST14 Logan, Utah
FM12 Huron, CA	PST18 Norman, Oklahoma
FM13 Lenwood, CA	PST19 Provo, Utah
FM20 Craig, CO	PST25 Tazewell, Tennessee
FM23 Limon, CO	PST27 Waimanalo, Hawaii
FM42 Victor, ID	SST3 Anderson, South Carolina
FM43 Victor, ID	SST4 Las Vegas, Nevada
FM48 Galatia, IL	SST5 Shreveport, Louisiana
FM52 Tell City, IN	SST13 Chattanooga, Tennessee
FM58 Middletown, MD	SST17 Hartford, Connecticut
FM59 Snow Hill, MD	SST18 Hartford, Connecticut
FM64 Lake City, MN	SST19 Lawton, Oklahoma
FM70 Poplar Bluff, MO	SST20 Madison, Wisconsin
FM102 Dickson, OK	SST21 Glens Falls, New York
FM104 Wilburton, OK	SST22 Scranton, Pennsylvania
FM110 Pocono Pines, PA	SST30 Tulsa, Oklahoma
FM114 Wessington Springs, SD	SST31 Bakersfield, California
FM120 Snyder, TX	SST33 Mt. Vernon, Indiana
FM124 Chincoteague, VA	SST36 San Fernando Valley, California
FM125 Emporia, VA	SST38 Goldsboro, North Carolina
FM133 Dickeyville, WI	SST42 Albuquerque, New Mexico
FM141 Gillette, WY	SST43 Raleigh, North Carolina

SST14	Spokane, Washington	SST80	Augusta, Georgia
SST24	Corpus Christi, Texas		

Attachment E

FCC Remote Bidding System Hardware and Software Requirements

At a minimum, bidders need the following hardware and software:

- CPU: Intel® Pentium or above
- RAM: 16 MB (more recommended if you have multiple applications open)
- Hard Disk: 33 MB available disk space
- 1.44 MB Floppy Drive or CD-ROM Drive (to install the Remote Bidding System)
- Modem: v.32bis 14.4 Kbps Hayes© compatible modem or faster (recommend 56.6 Kbps)
- Monitor: VGA or above
- Mouse or other pointing device
- Microsoft® Windows 95™ or Microsoft® Windows 98™
- Netscape® Communicator™ 4.61 is recommended. However, you can also use Netscape Communicator 4.5 or 4.51 (Internet web browser software).

Note: To download Netscape Communicator 4.61 free of charge, access the Netscape download site at <http://home.netscape.com/download/>

For questions regarding the above requirements, please contact Technical Support at (202) 414-1250.

Attachment F

HOW TO MONITOR THE FCC AUCTIONS ON-LINE

The auction announcements and round results for Auction 25 will be accessible through the FCC Wide Area Network, the Internet and the FCC Auction Bulletin Board System (BBS). You can check on round results and also read any material released by the Commission during the course of the auction. This fact sheet provides the information that you need to track the auction from your computer.

Option 1: Tracking the Auction via the FCC Wide Area Network

The FCC has implemented a Remote Access System that allows users to dial in directly to the FCC to view round results, auction announcements, and messages, and to make suggestions to the FCC regarding the FCC auction process.

The following minimum hardware and software are required to use the FCC Remote Access System:

Minimum Hardware Requirements

- CPU: Intel Pentium
- RAM: 16 MB (more recommended if you have multiple applications open)
- Modem: v.32bis 14.4 Kbps Hayes compatible modem or faster (recommend 56.6 Kbps)
- Monitor: VGA or above
- Mouse or other pointing device

Minimum Software Requirements

- Operating System: Microsoft Windows 95/98
- Point-to-Point Protocol (PPP) Dialer: Use the Dial-Up Networking feature included with Windows 95/98
- Web Browser: Netscape® Communicator™ 4.61 is recommended. However, you can also use Netscape Communicator 4.5 or 4.51 (Internet web browser software).

Note: To download Netscape Communicator 4.61 free of charge, access the Netscape download site at <http://home.netscape.com/download/>

Connecting to the FCC Network

To use the FCC Remote Access System, you must first connect to the FCC Network using Dial-Up Networking.

Dial-Up Networking connects to a 900 number (900-555-5335) telephone service at a charge of \$2.30 per minute. The first minute of connection time to the 900 number service is at no charge.

Dial-Up Networking establishes a point-to-point connection from your PC to the FCC Network. *This point-to-point connection is not routed through the Internet.*

For instructions regarding how to connect to the FCC Network using Dial-Up Networking, see the *Accessing the FCC Network Using Windows 95/98* section.

Note: Throughout these instructions, “enter” means to type the appropriate information and then press the ENTER key.

Using the FCC Remote Access System

After you have connected to the FCC Network, start your Netscape Web browser. In your browser’s *Location* field, enter the following location:

http://wtbwww03.fcc.gov and then click **Round Results Viewer, Suggestion Box, or Announcements**

Note: If you cannot access the preceding site, and you suspect there is a problem with your Domain Name Server (DNS), refer to *Accessing FCC Sites In Case of DNS Problems* at the end of this document.

When you have finished, exit your Web browser, then disconnect from the FCC Network.

For technical assistance with installing or using FCC software, contact the FCC Technical Support Hotline at (202) 414-1250 (V) or (202) 414-1255 (TTY). The FCC Technical Support Hotline is generally available Monday through Friday, from 8 a.m. to 6 p.m. ET. *All calls to the FCC Technical Support Hotline are recorded.*

Option 2: Tracking the Auction via the Internet

You may use your Web browser to download announcements and round results from ***wtbwww01.fcc.gov*** – or from either of two secondary locations, ***wtbwww13.fcc.gov*** or ***www.fcc.gov/wtb/auctions/*** -- as described in the following section.

Downloading from *wtbwww01.fcc.gov* or *wtbwww13.fcc.gov*:

1. Connect to your Internet service provider and start your Web browser.
2. In the *Location* field of the Web browser screen, enter one of the following locations:
http://wtbwww01.fcc.gov or ***wtbwww13.fcc.gov***

Note: If you cannot access either of the preceding sites, and you suspect there is a problem with your Domain Name Server (DNS), refer to *Accessing FCC Sites In Case of DNS Problems* at the end of this document.

3. Click on **Auction 25**.

- For auction announcements, click on **Announcements**.
- To download a bid import template file, click on **Announcements**, then select `template.txt`.
- For auction round results, click on **Results** and then click on the subdirectory for the type of files you wish to use:

mdb - Microsoft Access database files,
txt - text files, and
dbf - dBASE database files.

4. Click on the file you wish to download.

Downloading from *www.fcc.gov/wtb/auctions/*:

1. Connect to your Internet service provider and start your Web browser.
2. In the *Location* field of the Web browser screen, enter the following location:
http://www.fcc.gov/wtb/auctions/
3. Do the following:
 - a. In the *Auctions* section on the right, click **Broadcast Auct. #25** under *In Progress*.
 - b. Then click on **Announcements, Programs, or Results**.
 - For auction announcements, click on **Announcements**.
 - To download a bid import template file, click on **Announcements**, then select `template.txt`.
 - For auction round results, click on **Results** and then click on the subdirectory for the type of files you wish to use:

mdb - Microsoft Access database files,
txt - text files, and
dbf - dBASE database files.

4. Then click on the file you wish to download.

Archive Directories

The FCC will establish archive directories for round results files on the Internet. After every 50 rounds, files will be moved from the *Results* MDB, TXT, or DBF directories to a respective archive directory. The newest round results files will continue to be uploaded to the *Results* directory.

For example, in round 102, DBF round results files would be located as follows:

On the primary location, *wtbwww01.fcc.gov*:

Rounds 1-50 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/dbf/D001_050
Rounds 51-100 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/dbf/D051_100
Rounds 101-102 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/dbf/

Rounds 1-50 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/mdb/M001_050
Rounds 51-100 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/mdb/M051_100
Rounds 101-102 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/mdb/

Rounds 1-50 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/txt/T001_050
Rounds 51-100 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/txt/T051_100
Rounds 101-102 http://wtbwww01.fcc.gov/MMB/CP1/Auction_25/Results/txt/

Note: If you cannot access these files at the preceding primary location, you can use your regular Internet Service Provider to access the same files at either of the following secondary locations: *wtbwww13.fcc.gov* or *www.fcc.gov/wtb/auctions/*.

Option 3: Tracking the Auction via the Bulletin Board System (BBS)

The FCC Auction Bulletin Board System (BBS) provides dial-in access for Auction Results. To access the FCC Auction BBS, use a communications package that can handle Zmodem protocol (such as PcAnyWhere, Procomm, or Microsoft Hyperterminal in Windows 95/98) to dial in to (202) 682-5851 or (717) 338-0731. Use the settings of 8 data bits, no parity and 1 stop bit (8,N,1).

Once your computer is connected to the Auction BBS, do the following:

1. To create an account:
 - a. Enter your first name.
 - b. Enter your last name.
 - c. When asked whether you want to create an account, enter *y*. (You may also enter *Y*, the program accepts either case.)
 - d. When prompted, enter a password.

The password can be from four to ten characters long (where the characters can be either letters or numbers).

- e. To confirm the password, enter it again.
 - f. When prompted for contact information, enter your voice phone number. Include the area code; for example, you might enter **202-555-1234**.
 - g. Enter your company name.
2. On the Welcome screen, enter **c** for *Continue*.
 3. When asked whether you want to view the bulletin menu, enter **y** for *Yes*. Then, to continue, press ENTER to obtain the FCC Auction BBS Main Menu.
 4. Enter **a** (for Auction Menu) to obtain the *Auction Library Menu*. The top options on this menu provides a range of numbers to represent the available auctions.
 5. To select *Auction 25*, enter **c** to select the third range.
 6. On the Auctions Library Menu, enter the number of the auction you want.

The Auction Menu appears.

7. Enter **a** to select *Announcements* or enter **r** to select *Results*.

The list of available files for Auction 25 appears. These files are sorted by date, with the most recent files at the beginning of the list.

8. To scroll downward to the next screen of file names, either press ENTER or enter **c** for *Continue*. To scroll upward to the preceding screen of file names, enter **p** for *Previous*.

Note that on each screen, file names are numbered separately, starting with 1.

9. To select one or more files for downloading or viewing, mark the files you want. The program marks a file by preceding its name with an asterisk (*).

You can do the following:

- o To mark an individual file, enter its line number.
- o To mark a range of files, enter **m** (for *Mark*) and then enter the range of files in response to the prompt. For example, to mark files 6 through 12, enter **6-12** at the prompt.
- o To unmark a file, enter its number again. You can also use *Mark* to unmark a range of files.

10. When you have finished marking files, you may download or view the marked files (you may only view text files).

To download the marked files, take the following steps:

- a. Enter *d* for *Download*.

The program displays a list that summarizes the download operation. The *Time* column lists the download time for each file; the *Total Time* column lists a running total of the download times.

- b. Enter *d* to proceed.
- c. Select the file transfer protocol that has been specified in your terminal emulation software (e.g., Zmodem).
- d. When the download operation has finished, the list of files reappears.

To view the marked files, do the following:

- a. Enter *v* for *View*.
- b. Enter the file number that you would like to view.

11. Enter *x* to leave the BBS.

Note: All round results files will be accessed through the *Results* menu on the BBS. No archive menus will be created.

Announcement Files

The announcement files will use the naming convention *aa_xxx.nn*, where *aa* is the auction number, *xxx* is the round number and *nn* is the announcement number. For example, 25_002.07 would represent an announcement for Auction 25 that was posted during round two and was the seventh announcement for the auction.

Round Results Files

For each round, dBase-compatible database files will be uploaded with the following naming conventions:

- 25_xxxS.DBF contains all bids submitted in a particular round
- 25_xxxW.DBF contains all bids withdrawn in a particular round
- 25_xxxE.DBF contains the maximum eligibility and remaining number of waivers for each bidder

25_xxxH.DBF contains the high bids in a particular round and the minimum accepted bids for the next round

where *xxx* represents the round number.

For those who cannot use the dBase-compatible database files, we will also upload the ASCII text (.TXT) version of these files with the same filenames as above (e.g., 25_ xxxS.TXT, 25_ xxxE.TXT).

Round Results File Formats

The Round Results File Formats will be published in a future Public Notice.

Accessing FCC Sites In Case of DNS Problems

When you enter a URL into your browser, the system must convert this alphanumeric text (e.g., *www.fcc.gov/wtb/auctions/*) into its associated numeric IP address (*192.104.54.3*, in this case). To make this conversion, the system checks URL-to-IP-address “lookup” tables in two different places.

First, it looks at the table contained in a file called **hosts** in the c:\windows directory on your computer’s hard drive. If the URL is not in that table, the system looks in the database on your Domain Name Server (DNS). However, if your DNS is unavailable for some reason, the system will not be able to find the IP address you requested.

The following procedure is intended to help ensure that you can access auction results files on the FCC’s Web and FTP sites if your designated DNS has problems. Note the following:

- The IP addresses shown in the following procedure are correct as of the date this document was created. They may have changed subsequently. In case of problems, please check with Tech Support at (202) 414-1250.
- Make entries in the **hosts** file *only* to work around DNS problems. We do not recommend leaving these entries in permanently; please remove them when your DNS problem has been resolved.

To add FCC-related URL entries to your computer’s hosts file, do the following:

1. Using Windows Explorer, ensure that the hosts file exists in your c:\windows directory. If c:\windows has no **hosts** file, use the Windows *Rename* function to change the name of the **hosts.sam** file to **hosts** (with no extension).

To do this, use your *right-hand* mouse button to click the **hosts.sam** file, then click the *Rename* option in the menu that appears.

2. Using a text editor of your choice, such as Wordpad or Notepad, open the hosts file in your c:\windows directory.

This file will already contain the following entry:

```
127.0.0.1    localhost
```

3. Using the same format (with at least one space between each number and its corresponding URL), add the following entries to the bottom of the file:

```
192.104.54.3  ftp.fcc.gov
192.104.54.3  www.fcc.gov
208.245.40.194 wtbftp02.fcc.gov
208.245.40.194 wtbwww13.fcc.gov
207.123.193.68 wtbftp01.fcc.gov
207.123.193.68 wtbwww01.fcc.gov
```

4. Save the file and exit your text editor.

Be sure that the file name has not changed to *hosts.txt* or *hosts.doc* or similar. It must remain just **hosts** (with no extension).

Using the Backup 900 Number

If you had problems connecting through the FCC's 900 number, to review FCC Form 175 applications or to use the FCC Remote Access System, you must reconfigure Dial-Up Networking to use the backup 900 number. Do the following:

1. Click the *FCC Auctions 900#* icon, to highlight it.
2. Using your mouse's *right* mouse button, click this icon.
3. Click the *Properties* option on the menu.
4. In the *Telephone Number* field of the window that appears, type **555-5554**.
5. Click the **OK** button.

Help

For technical assistance with downloading files or installing and using FCC software, contact the FCC Technical Support Hotline at (202) 414-1250 (V) or (202) 414-1255 (TTY). The FCC Technical Support Hotline is generally available Monday through Friday, from 8 a.m. to 6 p.m. ET. *All calls to the FCC Technical Support Hotline are recorded.*

Attachment G

ACCESSING THE FCC NETWORK USING WINDOWS 95/98

This attachment describes how to access the FCC Network from a system that is running the Microsoft Windows 95 or Microsoft Windows 98 operating system. This involves configuring dial-up network access and then performing the dial-up procedure. Dial-up access to the FCC Network is required to submit FCC Form 175 applications electronically or use the FCC Remote Access System.

Note: Dial-up access to the FCC Network is *not* required to review FCC Form 175 applications. You can perform that function from the Internet, by entering location <http://wtbwww15.fcc.gov/> on your Netscape Web browser and clicking the **175 Review** button.

Conventions

The instructions in this section use the following typographical conventions:

bold Represents objects on the screen that you click with the mouse pointer, including buttons, Internet links, icons, tabs, menu items (e.g., **Cancel** button, **Auctions** link, **Save** option in the File menu).

italic Represents field names or areas of a screen (e.g., *Applicant* field, *Selected Licenses* area of a screen).

bold italic Represents characters that you must type exactly as they appear in the instructions. For example, if you are instructed to type <http://wtbwww03.fcc.gov>, you should type all of the characters shown in ***bold italic*** exactly as they are printed.

SMALL CAPS Represents keys on the keyboard (e.g., ENTER, CTRL, ESC).

Note: Throughout these instructions, “enter” means to type the appropriate information and then press the ENTER key.

Configuring Dial-Up Networking

1. To start dial-up networking:
 - a. Click the Windows 95/98 **Start** button.
 - b. Click the **Programs** option to display the Programs menu.
 - c. Click the **Accessories** option to display the Accessories menu.
 - d. In Windows 95, click **Dial-Up Networking**.
In Windows 98, click **Communications**, then **Dial-Up Networking**.

If Dial-Up Networking is not an option on your Accessories menu, you should install it from your Windows 95/98 CD or diskettes.

2. When the Dial-Up Networking window appears, double-click the **Make New Connection** icon.

The Make New Connection window appears.

3. If you are connecting to submit FCC Form 175 applications, type **FCC Auctions 800#** in the field titled *Type a name for the computer you are dialing*.

If you are connecting to use the FCC Remote Access System, type **FCC Auctions 900#** in the field titled *Type a name for the computer you are dialing*.

Note: If you connect to the FCC's 900# telephone service, there is a charge of \$2.30 per minute. The first minute of connection time to the 900 number service is at no charge.

4. In Windows 95, click the down arrow at the right of the *Select a modem* field and select your modem from the menu of available modems.

In Windows 98, click the down arrow at the right of the *Select a device* field and select your modem from the menu of available devices.

If your modem does not appear on this list, you must install your modem driver according to the modem manufacturer installation procedures, which are usually described in your modem's user manual.

5. Click the **Next** button.
6. If you are connecting to submit FCC Form 175 applications, type **800** and **378-7435** in the *Area Code* and *Telephone Number* fields, respectively.

If you are connecting to use the FCC Remote Access System, type **900** and **555-5335** in the *Area Code* and *Telephone Number* fields, respectively.

7. Verify that the correct country is selected in the *Country code* field.

If necessary, click the down arrow at the right of the *Country code* field and select the appropriate country from the menu of available countries.

8. Click the **Next** button.
9. Click the **Finish** button.

An icon labeled either *FCC Auctions 800#* or *FCC Auctions 900#* appears in the Dial-Up Networking window.

10. Verify that properties are configured correctly before attempting a dial-up session. Put the mouse pointer on the FCC Auctions icon that you wish to configure and click the *right* mouse button to display a menu. Click **Properties** from the menu.
11. Click the **Configure** button. Click the **Options** tab at the top of the Properties window.
12. In the *Connection control* area of the Options tab, verify that *neither* option is selected. If either option is selected, click the check box at the left of the option to deselect it. Then click **OK**.
13. In Windows 95, click the **Server Type...** button.

In Windows 98, click the **Server Types** tab at the top of the Properties window.
14. In the *Advanced Options* area, verify that only *Enable software compression* is selected. If it is not selected, click the check box at the left of the option to select it. If either of the other options is selected, click the check box to deselect it.
15. In the *Allowed Network Protocols* area, verify that only *TCP/IP* is selected.

If it is not selected, click the check box at the left of the option to select it. If either of the other options is selected, click the check box to deselect it.
16. Click the **TCP/IP Settings** button. On the TCP/IP Settings window, select *Server assigned IP address* at the top and *Server assigned name server addresses* in the area midway down the window.
17. Type **165.135.22.249** as the Primary DNS.

Ensure that these two options are checked:

- Use IP header compression
 - Use default gateway or remote network
18. Click **OK** on the TCP/IP Settings window and the Server Type window.
 19.
 - a. Click the *Windows 95/98 Start* button, then click the *Settings* option to display the Settings menu.
 - b. Click *Control Panel* and then double-click the *Network* icon.
 - c. Highlight the TCP/IP Protocol and click *Properties*. If there are multiple TCP/IP protocols, highlight TCP/IP --> Dial-Up Adapter and click *Properties*.
 - d. Click the *DNS Configuration* tab.
 - e. Select *Enable DNS*. Type **bidder** in the *Host* box, type **fcc.gov** in the *Domain* box, then type **165.135.22.249** in the *DNS Server Search Order* box and click the *Add* button.

- f. Click *OK* on the TCP/IP Properties windows, then click *OK* on the Network windows.
- g. If you are prompted to restart your computer, click *Yes* to restart, then begin the Dial-Up Procedure.

Dial-Up Procedure

1. If the Dial-Up Networking window is not currently open, do the following:
 - a. Click the Windows 95/98 **Start** button.
 - b. Click the **Programs** option to display the Programs menu.
 - c. Click the **Accessories** option to display the Accessories menu.
 - d. In Windows 95, click **Dial-Up Networking**
In Windows 98, click **Communications**, then **Dial-Up Networking**.

The Dial-Up Networking window appears.

2. In the Dial-Up Networking window, double-click the **FCC Auctions 800#** or **FCC Auctions 900#** icon.

Note: If you connect to the FCC's 900 number telephone service, there is a charge of \$2.30 per minute. The first minute of connection time to the 900 number service is at no charge.

3. Click the **Connect** button on the window. *Do not enter User name and Password.*

The Connection window appears, indicating the status of your connection as your modem dials into the system. This window must remain running during your dial-up session. You may minimize the window, if you wish.

If your modem fails to establish a connection, please see the *Troubleshooting* section below.

4. Once the connection is established, open your Web browser.
5. In your browser's *Location* field, enter the appropriate Universal Resource Locator (URL) as follows:
 - For FCC Form 175 Submit, enter ***http://wtbwww04.fcc.gov*** (primary location) or ***http://wtbwww34.fcc.gov*** (secondary location)
 - For the FCC Remote Access System, enter ***http://wtbwww03.fcc.gov*** (primary location) or ***http://wtbwww26.fcc.gov*** (secondary location)

If nothing appears in your Web browser, please see the *Troubleshooting* section below.

6. When you have finished, exit the Web browser, then click the **Disconnect** button on the Connection window to end your dial-up session.

Troubleshooting

Following are problems you may encounter and possible solutions for resolving or isolating them.

Modem does not respond

1. Confirm that all physical connections for the modem are present.
2. Confirm that the phone line is active by connecting it to a telephone and checking for a dial-tone.
3. If you are dialing the 900 number service, check for a 900 number telephone block. If the volume settings are low, the modem may be dialing but not connecting. Check for this by trying to connect to the 800 number, or by dialing the 900 number on that line using a telephone.
4. Confirm that the correct modem driver is installed for your modem.

Modem dials but does not connect

1. If you are dialing the 900 number service, check for a 900 number telephone block. Check for this by dialing the 800 number to see if you connect, or by dialing the 900 number on that line using a telephone.
2. Confirm that the number the modem is dialing is correct.
3. Confirm that the modem prefix, if any, is correct.
4. Reconfigure Dial-Up Networking to use the backup 900 number, as described under “Accessing FCC Sites In Case of DNS Problems” in the attachment titled *How To Monitor the FCC Auctions On-Line*.

Modem dials and connects, but nothing appears when you enter the Location in the Web browser

1. Verify the Dial-Up Networking settings specified in the Configuring Dial-Up *Networking* section.
2. Confirm that your Web browser is not using proxies:
 - a) On your browser, click the *Preferences* option in the Edit menu.
 - b) In the Category area at the left, double-click *Advanced*.
 - c) Click the Advanced structure’s *Proxies* option.
 - d) Click the radio button labeled *Direct connection to the Internet*.
 - e) Click the **OK** button at the bottom of the window.

Receive an Internal Server error in the Web browser

1. Confirm that the *Location* is correct.
2. Confirm that *Java* and *JavaScript* are enabled in your Web browser, and confirm that *Cookies* is set to Accept All.

Help

For technical assistance with installing or using FCC software, contact the FCC Technical Support Hotline at (202) 414-1250 (V) or (202) 414-1255 (TTY). The FCC Technical Support Hotline is generally available Monday through Friday, from 8 a.m. to 6 p.m. ET. *All calls to the FCC Technical Support Hotline are recorded.*
